Sign up for an Acer ID and enjoy great benefits

Open the *Acer Portal* app from the *Start* screen to sign up for an Acer ID or sign in if you already have an Acer ID.

**There are three great reasons for you to get an Acer ID:**

- Create your own connected world.
- Get the latest offers and product information.
- Register your device for quick, personalized customer support.

For more information, please visit the AcerCloud website:

SETTING UP

Unpacking your phone

Your new phone comes packed in a protective box. Carefully unpack the box and remove the contents. If any of the following items is missing or damaged, contact your dealer immediately:

• Your new Acer smartphone
• USB cable
• AC adapter
• Headset

Note

In-box content varies depending on country and region.

Charging the battery

For initial use, you need to charge your phone for eight hours. After that you can recharge the battery as needed. Connect the AC adapter cord to the USB connector on your phone.

Setting up for the first time

Inserting the SIM cards and microSD card

1. Turn off the phone by pressing and holding the power button.
2. Using the supplied tool, remove the SIM card / micro SD card tray by pressing the tip of the tool into the release hole on the tray.
3. Insert the SIM and microSD cards as shown.
4. Replace the tray and press it firmly into place, taking care to ensure that the cards remain properly seated in the tray.

SIM card lock

Your phone may come with a SIM card lock, i.e., you will only be able to use the SIM card provided by your network operator. To cancel the SIM lock, contact your network provider.
Turning on for the first time

To turn on your phone for the first time, press and hold the power button until the screen turns on. You will then be asked to configure some settings before you can use your phone. Follow the onscreen instructions to complete setup.

Protect your phone with fingerprint recognition

You will be asked to set up fingerprint, PIN, pattern, or password protection to control access to your phone. Select **Set up fingerprint** to register one or more fingerprints. If you use a fingerprint to access your phone, then you can use the fingerprint scanner to unlock your phone, authorise payments, and sign in to some apps.

You will also be asked to set up a second way to unlock your phone and how notifications will displayed when the screen is locked.

Follow the instructions, and when asked, lightly place your finger on the sensor, while holding your phone as you would normally. After adding your first fingerprint we recommend you register another finger so you can easily access your phone if, for example, holding your phone with your other hand.

Once you have added one or more fingers, tap **Next** to continue the setup process.

To register or delete fingerprints, or change Lock screen and security settings, see **Security** on page 48.

Sign in to or create a Google account

If you have internet access, your phone allows you to synchronize information with a Google account.

You may create or sign in to an existing Google account, which will be used to synchronize your contact list, email, calendar and other
information. Open the *Apps list* and then tap **Settings > Accounts > Add account**. Tap the type of account you want to add (for example Google or Acer). You will need internet access to complete the synchronization process. You can create and easily access multiple accounts from your phone, including multiple Google accounts.

**Entering your PIN**

When you install a SIM card for the first time, you may need to enter a PIN using the onscreen number pad.

⚠️ **Important**

Depending on your settings, you may be required to enter your PIN each time you switch on the phone function.

**Activating a new SIM card**

If you are using your SIM card for the first time, it may require activation. Contact your network operator for details on how to do this.

**Locking your phone**

If you will not use your phone for a while, briefly press the power button to lock access. This saves power and ensures your phone does not unintentionally use any services. Your phone will lock automatically if it is not used for one minute.
Waking your phone

If the screen is off and the phone does not react to any taps on the screen, then it has been locked and is in sleep mode.

Press the power button to wake your phone. Unlock your phone by sliding your finger upwards across the screen.

There are three icons at the bottom of the lock screen (from left to right): Voice search, lock, and camera. Place your finger on an icon and swipe upwards to unlock the screen and launch the associated app (if applicable) directly.

If there are notifications displayed on the lock screen, you can swipe downwards to view the notifications.

For additional security, you may set an unlock fingerprint, PIN, password or pattern, a set of dots that must be touched in the correct order, to access the phone. Open the Apps list and then tap Settings > Security > Screen lock. If you forget your unlock pattern, please refer to Lock screen on page 57.

Navigating through menus and options

To navigate through menus and options, there are three icons at the bottom of the screen.

A light touch on the fingerprint scanner functions like a tap on the Back icon, and a firm press, or long tap, functions like a tap on the Home icon.

**Back**

Tap this icon to go to the previous page, or to go up one level in a menu.
**Home**

Tap this icon to go directly to the *Home screen*. Tap and hold this icon to open *Google Now* or *Search*.

**Overview**

Tap this icon to see recently opened apps in your phone’s *Overview* screen. Tap an app to open it. Tap anywhere on the screen to return to the *Home screen*. See Multitasking on page 21.

**Home button / fingerprint sensor**

The fingerprint sensor also functions as a touch sensitive navigation button. Lightly tap the sensor to go *Back*, press to return to the *Home screen*, or press and hold to open the *Overview* screen.

**Using the touchscreen**

Your phone uses a touchscreen for selecting items and entering information. Use your finger to tap the screen.

**Tap**: Touch the screen once to open items and select options.

**Swipe**: Quickly swipe your finger across the screen to switch screens or open lists of options or information.

**Drag**: Hold your finger on the screen and drag across the screen to select text and images.

**Tap and hold**: Tap and hold an item to see a list of actions available for that item. On the pop-up menu that appears, tap the action you want to perform.

**Scroll**: To scroll up or down the screen, simply drag your finger up or down the screen in the direction that you want to scroll.
Onscreen keyboards

Google keyboard

This is a onscreen keyboard that allows you to enter text. Tap and hold a key with numbers at the top to select alternative characters, such as letters with accents.

Tap the ?123 key to see numbers and special characters, and then tap the =\< key to see even more.

If you have set up more than one language, the world key  appears next to the space bar. Tap this key to quickly toggle between multiple input languages, or tap and hold the space bar to open the language/keyboard selection window. The keyboard layout changes according to the selected language.

Predictive text

In most apps, Google keyboard provides predictive text input for the browser. As you tap the letters of a word, a selection of words are displayed above the keyboard that continue the sequence of letters tapped, or are a close match allowing for errors. The word list changes after every key press. If the word you need is displayed, tap on it to insert it into your text.

Text assistance

The Google keyboard has various features that assist you to enter correct text. In the Apps list, tap Settings > Language & input. Then tap Google Keyboard to see a list of settings you can adjust.

Note

The keyboard layout varies slightly, depending on the application and information that is required.
**Adding an extra language**

If you need to enter text in more than one language and/or alphabet you can add languages to the Google keyboard.

1. Tap **Settings > Language & input > Google Keyboard**.
2. Tap the toggle switch next to **Use system language** to turn it off.
3. Scroll through the list of available languages to select those that you wish to add to the keyboard by tapping the toggle switch to turn the languages on or off.

**The Home screen**

The *Home screen* gives you quick access to information and simple controls with widgets or shortcuts. These display information such as the time and weather, or provide additional controls and direct access to apps and other frequently used features of your phone.

At the bottom of the screen is the *Favorites tray* which displays default apps. Tap an icon to open the app. Tap the *Apps list* icon in the middle of the *Favorites tray* to view your apps. To change apps, see [Changing Favorites tray icons on page 19](#).

**Search**

To search for apps, files or for information on the internet, tap the *Google* icon. Simply enter the text you want to find and tap `Q` or tap one of the suggestions, apps or files shown in the list.
In order to search or browse the internet, you must be connected to a cellular data (if available) or wireless network. See Going online on page 34.

**Voice search**

If voice search is available, tap the microphone 🎤 and speak your search request. See Voice search on page 36.

**The extended Home screen**

The *Home screen* extends to either side of the screen, giving you more room to add icons, widgets or features. To view the extended screen, slide your finger to the left or right.

![Extended Home screen](image)

**Note**

*Extended screens to the right are only available if you have added content to the right of the Home screen.*

**Personalizing the Home screen**

You may personalize your *Home screen* by adding or removing app shortcuts or widgets, and by changing the wallpaper.
Adding shortcuts to the Home screen

To add app shortcuts to the Home screen, tap the Apps list icon in the bottom-center of the Home screen. Tap and hold the icon for the selected app. The Apps list will close and the Home screen will appear. Move the icon to the desired position on the Home screen and remove your finger.

Adding Widgets to the Home screen

Tap and hold any area of the Home screen that does not have an icon or Widget already. Tap WIDGETS to see small apps and links (such as custom shortcuts, contacts or bookmarks) that you can add to a Home screen. Widgets are small apps that display constantly-updated information or quick shortcuts to apps or special functions.

To move an app or widget to the Home screen, tap and hold an item until it is selected. The Home screen will open. Drag the item to any free area on the screen. To view information about the app or widget, drag it to the icon at the top of the screen.

To move the item to a different Home screen, drag it to the side of the screen, the Home screen will switch to the screen in that direction. Release the item when it is positioned correctly.
Removing Widgets or shortcuts from the Home screen

To remove a shortcut or widget from the Home screen, tap and drag it to Remove at the top of the screen.

Resizing widgets

Some widgets can be resized. As soon as you place a widget on the Home screen, you can resize it by dragging the corners.

To resize a widget that is already on the Home screen, tap and hold the widget. Once the Remove icon appears, release the widget. If the widget is resizable, you will be able to drag the sides of the widget to resize it.

Adding or removing folders

You can also add folders to your Home screen. To create a new folder drag and drop an app icon onto another app icon in the Home screen. This will create an Unnamed Folder. Tap the folder icon and then tap the name of the folder to rename it.
To delete an app shortcut from a folder, tap on the folder icon to display the apps inside and then tap and hold the app icon that you want to remove. Drag and drop the icon on Remove that will appear at the top of the screen.

To delete a folder, tap and hold on the folder and then drag and drop the folder on Remove that will appear at the top of the screen.

**Changing Favorites tray icons**

You can set icons for installed apps in the Favorites tray. Open the Apps list and find the app you want to add. Tap and hold the icon, then drag it to any open position in the Favorites tray. Dragging the new app to an existing Favorites tray icon will create a folder for both icons.

To remove an icon from the Favorites tray, tap and hold the icon to select it. Either drag the icon to a different location outside the Favorites tray or to Remove at the top of the screen.

**Changing the wallpaper**

Tap and hold any area of the Home screen that does not have an icon or Widget already, tap WALLPAPERS.
A selection of wallpapers are shown in a bar at the bottom of the screen; drag the bar left or right to see more options. If you wish to use a wallpaper other than those shown, tap **My Photos** in the lower-left corner and select and image from **Gallery** or **Photos**.

Tap on the thumbnail to select the wallpaper you wish to use, then tap **Set wallpaper**.

### The Apps list

To access the **Apps list**, on the **Home screen** tap 📱 in the center of the **Favorites tray**.

Apps are displayed in alphabetical order, with the four most-recently used apps at the top of the menu. Swipe up or down to see the complete list of apps.

### Notification and status area

Notification and status icons are shown at the top of the screen. The top-right area displays a variety of status information, such as Wi-Fi connectivity, signal strength, battery status, and time. The top-left area displays event icons, such as a new message.

- **Single-SIM models:**

```
 wichtig 100% 13:18
```

- **Dual-SIM models:**

```
 wichtig 100% 12:53
```
Swipe down from the *Notification bar* to display any notifications.

Swipe down twice or once with two fingers to open *Quick Settings*, which allows you to quickly adjust selected settings or turn features on or off.

**Multitasking**

You can have multiple apps open at the same time. To open a new app, tap the home icon to return to the *Home screen*, then start the new app. Tap the *Overview* icon to quickly navigate back and forth between previously-opened apps.
Access requests

When first opening certain apps, or using certain functions, your phone will ask for permission to access some features.

To allow the app to fully function tap **Allow**, but if you do not want to share some information you can choose to **Cancel** or **Deny** access; however this may cause some apps to function incorrectly. To change permissions later, open the app info in **Settings > Apps > Add account**, then tap **Permissions** to turn permissions on or off.
MANAGING CONTACTS

Managing your contacts

Your phone features an address book that allows you to save contacts to either the internal memory or onto your SIM card.

Tap the Contacts app from the Apps list or tap the All contacts icon from the Dialer to view your contacts.

If you don’t have any contacts stored on your phone, you can import your Google account contacts, add a new contact or import contacts from your SIM or SD card. Open the People app from the Apps list and then tap + to add a contact, Q to search for a contact, or tap the Menu icon : to open the menu.

Adding a contact

Tap + to add a new contact. You may also scan a person’s profile barcode to add the person to your contact list or group.

To create a contact, first choose where you want to store the contact’s information. You will then be asked to enter the contact’s information, such as name, phone number, and email.
You may scroll down the page and tap **More fields** to add information such as:

- IM addresses.
- Add any personal notes about the contact.
- Phonetic name
- Link a website

To assign an image to your contact, tap the silhouette and select whether to take a photo or select an image from your phone’s picture gallery.

When done, click the **Done** icon at the top of the screen.

Tapping on the contacts name will bring up their profile. Tap ☽ while viewing a contact’s profile to delete, share, or create a shortcut on the **Home screen** for the contact. Tap ⚙ to edit the contact’s details; tap ⚽ again for more options, where you may set a ringtone for the contact, send all incoming calls to voicemail, or add a contact picture.

You may also create a contact from an already dialed or received number, see **Saving a dialed number to contacts on page 29**.
This chapter shows you how to make phone calls, and the various options available to you during your call.

**Before making a call**

Check that the phone function is on before you make a call. You can confirm the phone status from the Notification area.

**Note**

*Status and notification icon colors may vary. You will see an indicator icon for each SIM card inserted.*

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
Making a call

Note
If you have multiple SIMs inserted in the phone, you may be asked which SIM to use before the call is connected. Depending on your SIM settings. To select a SIM, just tap the name of the carrier.
See SIM Management on page 53.

1. From the Home screen tap Phone then ☎️ to open the onscreen number pad.
2. Enter the number you wish to dial.
3. Tap ☎️ to make the call.
4. To end the call, tap 📠.
If the contact you need is displayed, simply tap the contact name to make a call.

Dialing a number from Call History

Your call history can be viewed by tapping the Call History ☎️ icon. It displays recent received, dialed, and missed calls.
Tap the phone icon to redial. To view call details and other options, tap the number or contact’s name.

Viewing missed calls

Missed call notifications are displayed in the following three areas:
1. The Notification area with the missed call 📨 icon. Open the Notification area and tap the missed call notification to display the missed call details.
2. By the Phone icon (the number in the box is the number of missed calls). Tap Phone from either the Home screen or the Apps list to directly display the missed call details.
3. On your phone’s lock screen. Double-tap the notification to display the missed call details.

![Missed call notification](image)

**Making a call to one of your contacts**

**Calling a contact from the Contacts tab**
1. Tap the **All contacts** to view your contacts.
2. Tap on a contact to call them.

**Calling a contact from the Contacts app**
1. Tap the **People** icon the **Apps list** to view your contacts.
2. Tap on a contact to open their profile.
3. Tap on the contact’s phone number to call them.

**Dialing an international number**

When dialing international numbers, there is no need to enter the international direct dialing prefix (’00’ etc.) before the country code. Simply tap and hold 0+ on the onscreen number pad until + appears onscreen.

---

**Important**

International call rates can vary greatly depending on the country you are calling and your network provider. We suggest you check all call rates with your network provider, to avoid excessive phone bills. If you are using your phone abroad, roaming charges will apply. Consult your network provider for roaming rates specific to the country you are visiting before you leave.

---

**Direct dial widget**

You may add a direct dial widget for a contact on your **Home screen**. Open the **Apps list**, then tap the **Widgets** tab. Tap and hold **Direct dial** and you will be able to place the widget on your **Home screen**. Once placed, you will be able to select a contact to associate with that particular widget on your **Home screen**.
The voice call screen

You can minimize the call window to appear as a movable dialog instead of a whole screen by tapping the icon. You can even set this "floating" dialog box as the default voice call screen. To do so, open *Quick Settings* (see *Notification and status area on page 20*). Tap the **Float caller** icon to activate.

Answering or declining a call

When you have an incoming call, the number will be shown on the screen. To accept or decline the call, tap and hold the phone icon in the middle of the screen, then slide your finger across the screen towards one of the three icons that appear.

Ending a call

To end a call, tap 🔄 from the voice call screen.
Voice call options

<table>
<thead>

</tr>
<tr>
<td></td>
<td>One option:</td>
</tr>
<tr>
<td></td>
<td>• Add a second call</td>
</tr>
</tbody>
</table>

Saving a dialed number to contacts
You can save a number you have dialed to your contacts for future use. From the Call History, tap the number and then tap Create new contact and enter the information. See Adding a contact on page 23. Alternatively you can tap Add to a contact to update an existing contact’s information.

Conference calls
If you have one call on hold and another on line, you can combine both calls to create a conference call.

After the first call is established, tap to add a second call. Tap to start the conference call.
This chapter shows you how to set up and use the *Messenging* app on your phone to send text (SMS) messages.

All SMS and MMS messages are accessed via *Messenging*. *Messenging* automatically arranges received and sent messages into threads.

To access *Messenging*, open the *Apps list* or tap *Messenging* on the *Home screen*.

### Note

*If you have multiple SIMs inserted in the phone, you will need to decide which SIM to use before sending the message. You will be able to see which SIM is the current SIM from the compose text box. To change SIM, tap and hold the send icon. See SIM Management on page 53 for more information.*

### Creating a new message

You can use your phone to compose text (SMS) and multimedia (MMS) messages.

1. Tap 📦 to compose a new message.
2. Tap 📱 to add contacts from your contacts list, or tap the **Type name or number** field to enter the recipient’s phone number or name directly. Suggested contacts will be displayed in a drop-down list below the text field. To select a suggested contact, tap the contact’s name.
3. Enter your message in the text box labeled **Type text message**.

### Note

Text messages may be up to 160 characters long. If your message is longer than 160 characters, it will be sent as multiple linked messages. Most phones will automatically join the linked messages to present the recipient with a single long message, however, some older phones do not have this ability.
Tap the menu button to see what options are available when creating a new message. The options change depending on the status of the message.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

4. Tap the Send icon ➤ to send the message.

Replying to a message

When a new text message arrives a message icon appears in the Notification area and the message icon at the bottom of the phone displays the number of unread text messages.

Tap Messaging from the Apps list to view the message list or open the Notification area to see a summary of the message. Tap the summary to open the message list.

To reply to an SMS or MMS message, open the message from the message list. Enter your text in the text box labeled Type message. Tap the Menu button to see more options.

<table>

</tbody>
</table>
Multimedia messages

Multimedia messages are similar to text messages but also allow you to attach files such as pictures, audio or video clips. Each message can be up to 300 kB in size.

Note
You need to set up an MMS profile before you can send MMS messages. Normally, your phone will set up the profile automatically. Ask your network provider for the necessary information if you need to manually set up the MMS profile.

Sending a multimedia message

Follow the instructions in Creating a new message on page 30 to start a new message or reply to an existing SMS as described in Replying to a message on page 31.

1. To convert an SMS to a multimedia message, tap the Add attachment icon 📦 at the top of the screen.
2. This opens a list of attachment options. Select one to either find a file on your phone or create a new attachment.
3. Tap the Send icon ➤ to send the message.

Receiving multimedia messages

When a new multimedia message arrives, a message icon appears at the top of the screen and a notification message is displayed.

1. The notification message displays a summary of the message. Tap View to view a summary of the message.
2. Tap Download to download the message content. Downloads can take a long time, depending on your connection quality. If you reply or open another app, the download will be stopped.
3. Tap the message to view the content.

4. To reply to the message, enter your text in the text box labeled **Type message** and tap the Send icon ➤. Simple text replies will be sent as SMS messages. If you wish to attach a file, tap ↓. You will be presented with a menu of options.

5. Tap the **Send** icon ➤ to send the message.

---

**Important**

You may be charged to download message content, especially if you are roaming. Please contact your provider if you have any questions.
Browsing the internet

In order to browse the internet with your phone, you must be connected to a data or wireless network.

Using the browser

To start browsing, tap the Chrome icon in the Favorites tray or the Apps list.

To open a new website, tap the address box at the top of the page. Enter the address using the keyboard and tap Go. You can zoom in or out of pages by pinching or reverse pinching.

To navigate forward and backward in your browser’s history, view your bookmarks, adjust browser settings, and perform other tasks, tap the Menu icon.

Chrome enables you to open multiple pages. By default, tabs are visible in the phone’s Overview screen. Tap the Overview icon at the bottom of the screen to display all of your open tabs (tap again to close). Tap a tab from the list to open it. To open a new tab, tap the Menu icon > New tab.

Setting up email

Your phone enables you to access your email through the Gmail app. If you sign in for the first time using a Gmail account, your information will automatically be used to create your Inbox on your phone.

Note
Reference images use the Chrome browser.
To add another account, open **Settings** from the *Apps list*, then tap **Accounts > Add account > [account type]**.

Enter the email address for the new account. If you have selected the wrong account type, you will be asked to confirm which account type to use.

Enter the password for the account and, if necessary, grant the *Gmail* app permission to access your account.

Most popular ISPs can be set up in just a few steps. If you are unable to set up the account automatically, enter your email address and tap **Manual setup** to enter the parameters manually. Tap **Next** to finish the setup process.

**Google services**

*Note*

*Apps may not be available in all countries and regions.*

You must activate a Google account before using Google services. The first time you access Google services, you must read and accept the Terms of Service.

**Setting up your Google email**

1. Make sure your phone is connected to a data or Wi-Fi connection.
2. From the *Apps list* tap **Gmail**.
   If you did not enter your Gmail account address and password when you first started your phone, follow the onscreen instructions.

**Composing an email**

1. Make sure your phone is connected to a data or Wi-Fi connection.
2. From the *Apps list* tap **Gmail**.
3. Tap ✍️.
4. Enter the recipient's email address, the subject and message.
5. When you are finished composing your message, tap ➤.
Voice search

With voice actions, you can send text messages, place calls, send emails, find directions of establishments, automatically call establishments, search the internet and even send a note to yourself using your voice. Tap **Voice Search** from the **Apps list**, or tap the **microphone icon** on the **Home screen**.

---

Play Store

**Important**
For connection issues with **Play Store**, see FAQ and troubleshooting on page 55.

Tap **Play Store** from the **Apps list** to open the **Google Play** app. Here you can obtain a variety of apps to enhance your phone.

The contents and design of **Google Play** varies by region. For example, in some regions, you can also browse for and purchase movies, books, magazines, or music. Updates may add new categories or change how to navigate **Google Play** at any time.

You can browse the store by category or tap the search icon to search for a specific app.

Once you have selected an app, tap **Install** to download and install the app. You will be told which services the app requires access in order to function correctly (e.g. contact information, wireless
access, GPS). If none of these services seem unusual, tap **Accept & download** to proceed with the installation.

You may keep track of the download progress from both the app’s page and the notification area.

![App installation progress](image)

**Important**

Some apps may require payment before you can download them. You will need to have a Google Wallet account in order to pay for these apps, or a credit card number associated with your Google account.

**Using downloaded apps**

Once you’ve downloaded and installed an app, you may find it in the **Apps list** or **Widgets** list.

Certain apps provide both an App and widget, or only provide a widget (with no app icon). See [Personalizing the Home screen](#) on page 16.

**Uninstalling downloaded apps**

Once you’ve downloaded and installed an app, you may uninstall the app by opening the **Apps list** and tapping **Settings > Apps**. Scroll through the list of apps and select the the app you wish to uninstall. Tap **UNINSTALL**.

**Note**

Deleting an app icon from the Home screen only deletes the shortcut.
Google Hangouts

Tap **Hangouts** from the **Apps list** to open **Google Hangouts**. Here you can see a list of your contacts connected to **Google Hangouts** services. Tap on a contact to open a chat session. After you have connected, you can open a video chat session.

Maps, Navigation and Places

Get easy-to-follow directions using **Google Maps**, view real-time traffic condition and navigate by using spoken, turn-by-turn driving instructions. Also, view where your friends are, places of interest, and local businesses.

**Note**

*Maps does not have information about every location.*
*Some locations may not have all zoom levels.*

**Using the map**

Tap the **Maps** icon in the **Apps list**. Drag the map with your finger to move the map around.

To zoom in or out:

1. Double-tap a location on the map to zoom in on the location, and tap once to zoom out, or
2. Touch an area with two fingers at once and spread them apart to zoom in, and pinch them together to zoom out.
**Using the Camera and Video Recorder**

Your phone features two cameras (front- and rear-facing). This section will take you through all the steps in taking photos and videos. To open the camera or video recorder, tap **Camera** from the **Apps list** or the **Favorites tray 📝**.

**Note**

You can only save photos and videos to internal memory.

**Camera/video icons and indicators**

- **Mode buttons**: In the camera window, if they are not visible, swipe in from the left to display the mode buttons: **Normal** and **Panorama**.
- **Quick Settings**: Tap an icon to turn **HDR** on or off, to set the flash mode, or to switch between the front and rear cameras.
- **Image/video quick view**
- **Image options**
- **Settings**
- **Shutter/video buttons**
**Settings:** Tap the *Settings* icon to change general, camera, and video settings.

**Image Options:** Tap the *arrow* icon to add a *Color effect* to the photo.

**Shutter/Image buttons:** Tap the shutter button to take a photo. Tap the *camera* button to begin recording. While recording, camera/video settings cannot be changed. Tap the camera again to stop filming.

**Zoom:** To zoom in, reverse pinch the screen. To zoom out, pinch the screen.

**Focus and light levels:** To set the focal point, tap the desired area on the screen.

For more information about modes, settings and options, see Camera and video options on page 41.

**Taking a photo**

1. Ensure the options are set to your preferences.
2. Frame your subject and steady your phone.
3. Zoom in or out as needed.
4. Tap 📷 to take the photo.

**Recording a video**

1. Ensure the options described above are set to your preferences.
2. Frame your subject and steady your phone and zoom in or out as needed.
3. Tap 🎬 to begin recording.
4. Tap 🎬 to stop recording.

**Viewing photos and videos**

After you have taken your photo or video, it is automatically saved to internal memory. You can quickly view it by tapping the thumbnail in the corner of the screen. Alternatively, open the *Apps List* and tap
**Gallery**, then **Camera**. Tap the photo or video you want to view (videos are marked with a small play symbol).

You can share and edit your images. Tap 📷 to see sharing options available for the file or tap 📂 to display image editing options.

## Camera and video options

### Mode

Change the way your camera takes pictures:

<table>
<thead>
<tr>
<th>Mode</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Normal</td>
<td>Take a single picture.</td>
</tr>
<tr>
<td>Panorama</td>
<td>Take a series of images that will be combined to make a single extra-wide picture.</td>
</tr>
</tbody>
</table>

### Settings

Settings are divided into three sections: **General**, **Camera** and **Video**.

#### General

Adjust general image settings with these options:

<table>
<thead>
<tr>
<th>Setting</th>
<th>Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Store location</td>
<td>Set if the location (from GPS) is stored in the image information. Certain apps can use this to show where the photo was taken</td>
</tr>
<tr>
<td>Face beauty</td>
<td>Multi-face mode / Disabled</td>
</tr>
<tr>
<td>Exposure</td>
<td>-3 to +3</td>
</tr>
<tr>
<td>Scene mode</td>
<td>Auto / Night / Sunset / Party / Portrait / Landscape / Night portrait / Theatre / Beach / Snow / Steady photo / Fireworks / Sports / Candle light</td>
</tr>
<tr>
<td>White balance</td>
<td>Auto / Incandescent / Daylight / Florescent / Cloudy / Twilight / Shade / Warm florescent</td>
</tr>
<tr>
<td>Image properties</td>
<td>Sharpness / Hue / Saturation / Brightness / Contrast</td>
</tr>
<tr>
<td>Anti-flicker</td>
<td>Auto / Disabled / 50 Hz / 60 Hz</td>
</tr>
</tbody>
</table>
**Camera**

Adjust camera image settings with these options:

<table>
<thead>
<tr>
<th>Setting</th>
<th>Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Zero shutter delay</td>
<td>On / off</td>
</tr>
<tr>
<td>Anti-shake</td>
<td>On / off</td>
</tr>
<tr>
<td>Voice capture</td>
<td>On / off</td>
</tr>
<tr>
<td>Face detection</td>
<td>On / off</td>
</tr>
<tr>
<td>Smile shot</td>
<td>On / off</td>
</tr>
<tr>
<td>Auto scene detection</td>
<td>On / off</td>
</tr>
<tr>
<td>Self timer</td>
<td>Off / 2 seconds / 10 seconds</td>
</tr>
<tr>
<td>Capture number</td>
<td>40 shots / 99 shots (for Continuous shot)</td>
</tr>
<tr>
<td>Picture size</td>
<td>Up to 9.5 MP</td>
</tr>
<tr>
<td>Preview size</td>
<td>Full screen / Standard (4:3)</td>
</tr>
<tr>
<td>ISO</td>
<td>Auto / 100 / 200 / 400 / 800 / 1600</td>
</tr>
</tbody>
</table>

**Video**

Adjust video settings with these options:

<table>
<thead>
<tr>
<th>Setting</th>
<th>Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Noise reduction</td>
<td>On / off</td>
</tr>
<tr>
<td>EIS (Electronic Image Stabilization)</td>
<td>On / off</td>
</tr>
<tr>
<td>Microphone</td>
<td>On / off</td>
</tr>
<tr>
<td>Audio mode</td>
<td>Normal / Meeting</td>
</tr>
<tr>
<td>Time lapse interval</td>
<td>Disabled / 1 / 1.5 / 2 / 2.5 / 3 / 5 / 10 seconds</td>
</tr>
<tr>
<td>Video quality</td>
<td>Low / Medium / High / Fine</td>
</tr>
</tbody>
</table>

**Supported formats**

To see supported image, video, and audio formats, see Multimedia on page 65.
Putting your phone in Airplane mode

You can enable Airplane mode (also known as flight mode) to turn off cellular, Wi-Fi and Bluetooth functions and use your phone as a handheld device during a flight. Check with your airline to make sure this is permitted onboard.

Switch your phone off during takeoff and landing as it may interfere with aircraft electronic systems.

Turning Airplane mode on or off

Open Quick Settings and tap Airplane mode.

Restarting your phone

You can restart ('reboot') your phone if you find apps are not responding.

1. Press and hold the power button until you get the phone options menu.
2. Tap Restart.
Adjusting settings

Wireless & networks (managing connections)

Open the *Apps list* and tap *Settings* to manage your connection settings.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wi-Fi</td>
<td>Turn the Wi-Fi function on or off.</td>
</tr>
<tr>
<td>Bluetooth</td>
<td>Turn the Bluetooth function on or off.</td>
</tr>
<tr>
<td>SIM cards</td>
<td>Set a default SIM for particular functions (such as voice calling or messaging), turn the data connection on or off, set roaming preferences and associate contacts with a SIM.</td>
</tr>
<tr>
<td>Data usage</td>
<td>View an estimate of the mobile data used for each SIM.</td>
</tr>
<tr>
<td>Call Settings</td>
<td>Change various settings related to making and receiving calls.</td>
</tr>
</tbody>
</table>

More...

Access additional connection settings:
- **Airplane mode**: Disable all wireless connections so you can safely use this device onboard an aircraft.
- **SMS app**: Set the app used to send and receive SMS.
- **Tethering & portable hotspot**: Share your phone’s mobile data connection via USB or as a portable Wi-Fi hotspot.
- **VPN**: Set up and manage Virtual Private Networks.
- **Cellular/Mobile networks**: Set your options for connecting to cellular networks.
- **Cell broadcasts**: View active alerts for your area.

If your phone is in Airplane mode, the option to turn Bluetooth on will be disabled. Please refer to *Putting your phone in Airplane mode on page 43* for instructions on turning Airplane mode on or off.
**Adjusting Bluetooth settings**

You can use Bluetooth to exchange information between your phone and other mobile devices.

**Bluetooth connections**

For all Bluetooth settings, open the *Apps list* and tap **Settings > Bluetooth**. Tap the toggle switch next to turn Bluetooth on or off. When you turn Bluetooth on, your phone will automatically search for any nearby devices that are discoverable. Your phone will be discoverable as long as you have the Bluetooth settings open.

To connect to a device, tap the device in the list of available devices. You may be asked to enter a PIN on both devices to establish the connection.

To simply turn on or off Bluetooth, open the *Notification* area and tap the **Bluetooth** icon.

**Internet sharing**

**Tethering via USB**

If you wish to share your mobile internet connection with a computer, you can connect your phone to a PC using the supplied USB cable.

1. Plug the USB sync cable into the USB connector on your phone.
2. Plug the USB client connector into an available USB port on your computer.
3. Open **Settings > More.. > Tethering & portable hotspot > USB tethering** to turn USB internet sharing on or off.
Wi-Fi hotspot
You can turn your phone into a portable Wi-Fi hotspot to share your mobile internet connection with up to eight clients.
1. Open Settings > More... > Tethering & portable hotspot > Wi-Fi hotspot.
2. Tap Set up Wi-Fi hotspot, and change the Network name, security, and password as necessary. Tap SAVE to finish.

Note
When your phone is serving as a Wi-Fi hotspot, you can only access the internet via your phone’s data connection, and you may incur data charges.

Phone network settings
In the Apps list tap Settings > More... > Cellular networks to adjust your network settings. You can turn data connection on or off when roaming, choose a preferred network type, specify a network operator and define access point names.

Selecting a network
Your phone will automatically detect your carrier/network settings when you insert a new SIM card. However, you may prefer to manually select a network when roaming.

Note
When you are traveling, manually selecting a network may help to reduce your roaming charges. Check with your home service provider for the network offering the most competitive rates at your destination.

1. Open the Apps list and tap Settings > More... > Cellular networks > Network operators > Search networks.
2. Your phone will search for available networks.
3. Select your preferred network from the list generated. You phone will attempt to register on the selected network.
4. Tap **Select automatically** to connect to the available network with the strongest signal. This may lead to your phone jumping between networks when you move around.

**Note**

*Contact your service provider should you have any problems obtaining voice mail and the text message service center numbers.*

---

**Data usage control settings**

Data usage controls let you monitor total usage by network type and app and then set limits if needed.

Ensure Wi-Fi or mobile data is enabled before setting a limit. Access data usage settings from the *Apps list* by tapping **Settings > Data usage**. Tap **Set cellular data limit** to set a threshold at which your data connection will automatically be disabled.

**Important**

*Your phone and your cellular carrier may calculate data usage using different criteria. Your carrier will charge you according to their methods: Please consider setting a conservative limit.*

---

**Phone settings**

Many phone settings are automatically configured by your phone when you insert a SIM card. The device will communicate with your provider and automatically obtain all necessary settings, such as network name, voice mail and text message center numbers.

You can also view and modify these settings manually through the Call settings screen.

Open **Settings > Call settings**.

**Adjusting the volume**

Adjust the volume of your phone using the volume button on the side of the phone. Alternatively, you can set the Ringtone, Notifications, and Alarms volume by opening **Settings > Sound & notification** and then adjusting the sliders under **Sound**.
Display

To adjust your phone’s display settings, in the Apps list tap Settings > Display.

You can also adjust the screen brightness, turn casting or screen rotation on or off from Quick Settings.

Security

To adjust your phone’s security settings, in the Apps list tap Settings > Security.

You can adjust the screen lock (Swipe, Pattern, PIN, or Password), and set Lock screen options, set up Smart Lock (keep your phone unlocked when it is near you or your home), SIM card lock, and installation options.

Fingerprint settings

Tap Settings > Security > Fingerprint to scan or delete fingerprints and learn about using the fingerprint scanner to authorise purchases or control app access.

Setting the date and time

To set the date and time, open Settings > Date & time.

If you travel frequently or live in an area that uses daylight saving time, tap Automatic date & time and Automatic time zone to turn them both on. This will enable your phone to set the date and time based on information it receives from the network.

Setting alarms

There are two predefined alarms on your phone by default. Open Clock from the Apps list, and then tap ☎️ to view the alarms. Tap and hold an alarm to change its settings. You may:

• Turn the alarm on or off.
• Set the alarm time.
• Set which days to repeat the alarm.
• Set a ringtone.
• Enable or disable vibrate.
• Give it a label.

Changing language and text options

Set your location and language input preferences by opening Settings > Language & input.

Connecting to a PC

If you wish to transfer information between your device and your computer (either the microSD card in your device or the device’s internal memory), you can connect your device to a PC using the supplied USB cable.

1. Plug the USB sync cable into the USB connector on your phone.
2. Plug the USB client connector into an available USB port on your computer.
3. Open the notification area and tap USB for charging then choose File transfers.

Your device will now be available as a drive in your computer’s file explorer.

Note

After turning on USB storage, you will not be able to access the files in the microSD card or apps such as Gallery or Music.
Synchronization

You can sync your calendar, email and contacts on your phone and never worry about losing them again. Sync in real time or adjust it as you please. Open **Settings > Accounts > [account name]** to access the synchronization settings.

To add a new account, tap **Add account**. Select the type of account and then follow the onscreen instructions.

**Google Sync**

In Google, you can set synchronization for Google services. In your Google account’s synchronization settings menu, tap the item you would like to have auto-sync. Tap again for manual synchronization.

To manually synchronize an item, make sure toggle switch next to the item is turned on, tap the **Menu** icon and then tap **Sync now**.

**Note**

*You need a Google account to sync your calendar and appointments.*

**Apps (applications)**

**Uninstalling an app**

You can remove programs installed on your phone to free up extra storage memory. From the Apps list, tap and hold the app you wish to uninstall, and then drag it to "Uninstall" at the top of the screen. You will be asked to confirm the uninstall; tap **OK**.

**Important**

*Can only uninstall apps that you have downloaded from Play Store.*
Restoring to factory settings

You may perform a clean boot to restore your phone to the factory settings. Before performing a clean boot, ensure that your phone is not locked. Press any button or tap the screen to see if the phone responds.

Important
You should only perform a clean boot when all other options have failed to restore your phone to an operational state. This will erase all your personal information, any contacts stored on your phone and any programs you installed.

If your phone is responding to screen input, then open Settings from the Apps list. Tap Backup & reset > Factory data reset > Reset phone and then Erase everything to format your phone.
ACCESSORIES AND TIPS

This chapter shows you how to use accessories with your phone, as well as provide useful tips for when you are using your phone.

Using the headset

Your phone is compatible with headsets with built-in microphone for handsfree use when making calls.

To use the headset, plug it into the 3.5 mm headphone jack at the top of the phone.

When the headset is plugged in, all audio is routed to the headset, and the speakers are turned off.

• To answer an incoming call, press the button on the microphone.
• Adjust the volume using the volume up/down button on the phone.
• End the call by pressing the button again.

Using a Bluetooth headset

Your phone’s Bluetooth functions make it fully compatible with all Bluetooth headsets. This allows you to use the unit handsfree when making calls, without the inconvenience of wires.

Creating a new access point

When you need to add another cellular connection on your phone, obtain the access point name and settings (including username and password if required) from your wireless service provider.

1. Open the Apps list and tap Settings > More... > Cellular networks > Access Point Names, and select an operator.
2. Tap the Add icon and then enter the APN settings. Tap an item to adjust it.
3. When you have finished tap the Menu icon and then tap Save.
SIM Management

Open the Apps list and tap Settings > SIM cards. From this screen, you can:

1. Enable or disable each SIM.
2. Configure each SIM’s name, phone number, display numbers, and assign a color to each SIM (allowing you to quickly and easily recognize which SIM is active).
3. Set the default SIM for voice calls, data connection, and cellular service.
4. General settings for each SIM.

Selecting which SIM to use when making a call

If you have set Voice call to Always ask, you will be asked which SIM to use each time you make call. Enter the number, then tap . A dialog opens; tap the SIM to use and the call will be connected.
**Identifying calls**

Whenever you receive a call, the caller’s number will be shown using the color defined for the SIM that the call is being received on. You will also be shown the name of the SIM receiving the call.

In the call log, the name of the SIM will be shown beneath the number of the call -- whether the call was missed, answered or was an outgoing call -- in the color you defined for that SIM.

**Limitations when using multiple SIMs**

<table>
<thead>
<tr>
<th>When a SIM is:</th>
<th>Other SIM cannot:</th>
</tr>
</thead>
<tbody>
<tr>
<td>In a call</td>
<td>Dial out</td>
</tr>
<tr>
<td>Ringing</td>
<td>Receive a call (caller will get a &quot;number not available&quot; message)</td>
</tr>
<tr>
<td>Sending or receiving a message</td>
<td>Send or receive a message</td>
</tr>
<tr>
<td>Using a data connection</td>
<td>Use a data connection</td>
</tr>
</tbody>
</table>

**Note**

*If you are using data on one SIM and you make or receive a call, or send or receive a text message on another SIM, the first SIM’s data connection will be temporarily halted.*
FAQ and troubleshooting

This section lists frequently asked questions that may arise during the use of your phone, and gives easy answers and solutions to these questions.

Audio

<table>
<thead>
<tr>
<th>Question</th>
<th>Suggestions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Why is there no sound coming from the device?</td>
<td>If the headset is plugged into the device, the speaker is automatically shut off. Disconnect the headset. Check that the device volume setting is not muted. Check that the volume control is not at its lowest setting.</td>
</tr>
</tbody>

**WARNINGS AND PRECAUTIONS**

- Do not use this product near water.
- Do not place this product on an unstable cart, stand or table. If the product falls, it could be seriously damaged.
- Slots and openings are provided for ventilation to ensure reliable operation of the product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surface. This product should never be placed near or over a radiator or heat register, or in a built-in installation unless proper ventilation is provided.
- Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind onto or into the product.
- To avoid damage of internal components and to prevent battery leakage, do not place the product on a vibrating surface.
- Never use this product when engaging in sporting activities, exercising, or in any vibrating environment which may cause a short circuit or damage, and even a risk of explosion from the battery pack.

*Protecting your hearing*

To protect your hearing, follow these instructions.
- Increase the volume gradually until you can hear clearly and comfortably.
- Do not increase the volume level after your ears have adjusted.
- Do not listen to music at high volumes for extended periods.
- Do not increase the volume to block out noisy surroundings.
- Decrease the volume if you can’t hear people speaking near you.

*Additional safety information*

Your device and its enhancements may contain small parts. Keep them out of the reach of small children.
Operating environment

Important
For safety reasons, turn off all wireless or radio transmitting devices when using your phone device under the following conditions. These devices may include, but are not limited to: Wireless LAN (WLAN), Bluetooth and/or cellular.

Remember to follow any special regulations in force in any area, and always switch off your device when its use is prohibited or when it may cause interference or danger. Use the device only in its normal operating positions. To successfully transmit data files or messages, this device requires a good quality connection to the network. In some cases, transmission of data files or messages may be delayed until such a connection is available. Ensure that the above separation distance instructions are followed until the transmission is completed.

Parts of the device are magnetic. Metallic materials may be attracted to the device, and persons with hearing aids should not hold the device to the ear with the hearing aid. Do not place credit cards or other magnetic storage media near the device, because information stored on them may be erased.

Medical devices

Operation of any radio transmitting equipment, including wireless phones, may interfere with the functionality of inadequately protected medical devices. Consult a physician or the manufacturer of the medical device to determine if they are adequately shielded from external RF energy or if you have any questions. Switch off your device in health care facilities when any regulations posted in these areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF transmissions.

Pacemakers. Pacemaker manufacturers recommend that a minimum separation of 15.3 cm (6”) be maintained between wireless devices and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research by and recommendations of Wireless Technology Research. Persons with pacemakers should do the following:
• Always keep the device more than 15.3 cm (6") from the pacemaker.
• Not carry the device near your pacemaker when the device is switched on. If you suspect interference, switch off your device, and move it.

**Hearing aids.** Some digital wireless devices may interfere with some hearing aids. If interference occurs, consult your service provider.

**Vehicles**

RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles such as electronic fuel injection systems, electronic anti-skid (anti-lock) braking systems, electronic speed control systems, and air bag systems. For more information, check with the manufacturer, or its representative, of your vehicle or any equipment that has been added. Only qualified personnel should service the device, or install the device in a vehicle. Faulty installation or service may be dangerous and may invalidate any warranty that may apply to the device. Check regularly that all wireless equipment in your vehicle is mounted and operating properly. Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device, its parts, or enhancements. For vehicles equipped with an air bag, remember that air bags inflate with great force. Do not place objects, including installed or portable wireless equipment in the area over the air bag or in the air bag deployment area. If in-vehicle wireless equipment is improperly installed, and the air bag inflates, serious injury could result. Using your device while flying in aircraft is prohibited. Switch off your device before boarding an aircraft. The use of wireless teledevices in an aircraft may be dangerous to the operation of the aircraft, disrupt the wireless telephone network, and may be illegal.

**Potentially explosive environments**

Switch off your device when in any area with a potentially explosive atmosphere and obey all signs and instructions. Potentially explosive atmospheres include areas where you would normally be advised to turn off your vehicle engine. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death. Switch off the
device at refueling points such as near gas pumps at service stations. Observe restrictions on the use of radio equipment in fuel depots, storage, and distribution areas; chemical plants; or where blasting operations are in progress. Areas with a potentially explosive atmospheres are often, but not always, clearly marked. They include below deck on boats, chemical transfer or storage facilities, vehicles using liquefied petroleum gas (such as propane or butane), and areas where the air contains chemicals or particles such as grain, dust or metal powders.

Follow any restrictions. Do not use the device where blasting is in progress.

**Emergency calls**

**Important**

Wireless phones, including this device, operate using radio signals, wireless networks, landline networks, and user-programmed functions. Because of this, connections in all conditions cannot be guaranteed. You should never rely solely on any wireless device for essential communications like medical emergencies.

If certain features are in use, you may first need to turn those features off before you can make an emergency call. Consult this guide or your service provider for more information.

When making an emergency call, give all the necessary information as accurately as possible. Your wireless device may be the only means of communication at the scene of an accident. Do not end the call until given permission to do so.

**Taking care of your phone**

1. **DO** take care not to scratch the screen of your phone. Keep the screen clean. When working with your phone, use your finger or fingernail. Never use an actual pen or pencil or other sharp object on the screen surface.

2. **DO NOT** expose your phone to rain or moisture. Do not let water enter the circuitry. In general, treat your phone as you would any other small electronic device.
3. **DO** be careful not to drop your phone or subject it to any strong impact. Do not place your phone in your back pocket.

4. **DO NOT** expose your phone to extreme temperatures. For example, do not leave your phone on the dashboard of a car on a hot day or when temperatures are below freezing point. Also, keep it away from heaters and other sources of heat.

5. **DO NOT** use or store your phone in any location that is dusty, damp or wet.

6. **DO** use a soft, damp cloth to clean your phone. If the surface of the screen becomes soiled, clean it with a soft cloth moistened with diluted window-cleaning solution.

7. **DO NOT** press down on the screen with force, otherwise you may crack the screen.
**SPECIFICATIONS**

**Performance**

- Octa-core processor (MT6753 1.3 GHz)
- System memory:
  - 2 GB or 3 GB of RAM
  - 16 GB or 32 GB of ROM
- Android operating system

**Display**

- 5.5" IPS LCD, capacitive touchscreen
- 1080 x 1920 FHD resolution

**Dimensions**

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>

<td>Weight</td>
<td>&lt;169 g (with battery)</td>
</tr>
</tbody>
</table>

**SIM support**

- Two slots (2x nano-SIM, or nano-SIM + microSD card)

**Connectivity**

- Bluetooth 4.0 + LE

**Note**

Specifications may vary depending on region and configuration.

**Note**

Frequencies and bands supported vary depending on model.
• IEEE 802.11b/g/n
• 4G LTE
  • EU, AAP models:
    FDD: 2100 (Band 1) / 1800 (Band 3) / 2600 (Band 7) / 850 (Band 5) / 800 (Band 20)
    TDD: 2600 MHz (Band 38) / 2300 MHz (Band 40) / 2600 MHz (Band 41)
  • HSPA+/WCDMA:
    • EU, AAP models:
      900 (Band 8) / 850 (Band 5) / 2100 (Band 1)
  • GSM/GPRS/EDGE:
    • 1900 MHz (Band 2) / 1800 MHz (Band 3) / 900 MHz (Band 8) / 850 MHz (Band 5)
  • HSDPA up to 42.2 Mbps, HSUPA up to 11.5 Mbps
  • GPRS Class 12 / EDGE Class 12
  • GPS, with aGPS support and SUPL

Expansion

• microSD memory card slot (up to 32 GB; SDHC 2.0 compatible)
• Micro USB connector (with OTG)

Camera

• 13 MP rear camera
  • Auto-focus
  • LED flash
• 5 MP front camera
  • Fixed focus

Security

• Fingerprint scanner
Power

• Adapter
  • AC input: 100 to 240 V, 50 or 60 Hz
  • DC output: 5 V, 2 A
  • Micro USB connector
• 4080 mAh nominal-rated Lithium Polymer battery (not user-replaceable)

Note
Length of battery operation will depend on power consumption which is based on system resource use. For example, constantly using the backlight or using power-demanding apps will shorten battery life between charges.

Adapter manufacturer name: Shenzhen BMT Electronics Co., Ltd.
END USER LICENSE AGREEMENT

IMPORTANT-READ CAREFULLY: THIS END USER LICENSE AGREEMENT ("AGREEMENT") IS A LEGAL AGREEMENT BETWEEN YOU (EITHER AN INDIVIDUAL OR A SINGLE ENTITY), AND ACER INC. INCLUDING ITS SUBSIDIARIES ("ACER") FOR THE SOFTWARE (WHETHER PROVIDED BY ACER OR BY ACER'S LICENSORS OR SUPPLIERS) THAT ACCOMPANIES THIS AGREEMENT, INCLUDING ANY ASSOCIATED MEDIA, PRINTED MATERIALS AND RELATED USER ELECTRONIC DOCUMENTATION WHICH MAY BE BRANDED "ACER" ("SOFTWARE"). AGREEMENTS RELATING TO ANY OTHER PRODUCT OR TOPIC ARE NEITHER INTENDED NOR SHOULD THEY BE IMPLIED. BY INSTALLING THE ACCOMPANYING SOFTWARE OR ANY PORTION THEREOF, YOU AGREE TO BE BOUND BY THE TERMS AND CONDITIONS OF THIS AGREEMENT. IF YOU DO NOT AGREE TO ALL OF THE TERMS AND CONDITIONS OF THIS AGREEMENT, DO NOT CONTINUE THE INSTALLATION PROCESS AND IMMEDIATELY DELETE ALL INSTALLED FILES, IF ANY, OF THE ACCOMPANYING SOFTWARE FROM YOUR PHONE.

IF YOU DO NOT HAVE A VALIDLY-LICENSED COPY OF THE APPLICABLE SOFTWARE, YOU ARE NOT AUTHORIZED TO INSTALL, COPY OR OTHERWISE USE THE SOFTWARE, AND HAVE NO RIGHTS UNDER THIS AGREEMENT.

The Software is protected by U.S. and international copyright laws and conventions as well as other intellectual property laws and treaties. The Software is licensed, not sold.

GRANT OF LICENSE

Acer grants to you the following non-exclusive and non-transferable rights with respect to the Software. Under this Agreement, you may:

1. Install and use the Software only on a single designated phone. A separate license is required for each phone on which the Software will be used;
2. Make one copy of the Software solely for backup or archival purposes;
3. Make one hardcopy of any electronic documents included in the Software, provided that you receive the documents electronically.

RESTRICTIONS

You may NOT:

1. Use or copy the Software except as provided in this Agreement;
2. Rent or lease the Software to any third party;
3. Modify, adapt, or translate the Software in whole or in part;
4. Reverse engineer, decompile, or disassemble the Software or create derivative works based upon the Software;
5. Merge the Software with any other program or modify the Software, except for your personal use; and
6. Sublicense or otherwise make the Software available to third parties, except that you may, after prior written notification to Acer, transfer the Software as a whole to a third party so long as you do not retain any copies of the Software and such third party accepts the terms of this Agreement.
7. Transfer your rights under this Agreement to any third parties.
8. Export the Software in contravention of applicable export laws and regulations, or (i) sell, export, re-export, transfer, divert, disclose technical data, or dispose of, any Software to any prohibited person, entity, or destination including, without limitation, Cuba, Iran, North Korea,
Sudan and Syria; or (ii) use any Software for any use prohibited by the laws or regulations of the United States.

SUPPORT SERVICES
Acer is not obligated to provide technical or other support for the Software.

ACER LIVE UPDATE
Certain of the software contains elements that enable the use of the Acer Live Update service, which allows for updates for such software to be automatically downloaded and installed on your phone. By installing the software, you hereby agree and consent that Acer (or its licensors) may automatically check the version of such software that you are using on your phone and may provide upgrades to such software that may be automatically downloaded on to your phone.

OWNERSHIP AND COPYRIGHT
Title, ownership rights and intellectual property rights in and to the Software and all copies thereof shall remain with Acer or Acer's licensors or suppliers (as applicable). You do not have or shall not gain any proprietary interest in the Software (including any modifications or copies made by or for you) or any related intellectual property rights. Title and related rights in the content accessed through the Software is the property of the applicable content owner and may be protected by applicable law. This license gives you no rights to such contents. You hereby agree 1. Not to remove any copyright or other proprietary notices from the Software; 2. To reproduce all such notices on any authorized copies you make; and 3. To use best efforts to prevent any unauthorized copying of the Software.

TRADEMARKS
This Agreement does not grant to you any rights in connection with any trademarks or service marks of Acer or of Acer's licensors or suppliers.

DISCLAIMER OF WARRANTIES
TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, ACER, ITS SUPPLIERS, AND ITS LICENSORS, PROVIDE THE SOFTWARE "AS IS" AND WITH ALL FAULTS, AND HEREBY DISCLAIM ALL OTHER WARRANTIES AND CONDITIONS, EITHER EXPRESS, IMPLIED OR STATUTORY, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES, DUTIES OR CONDITIONS OF MERCHANTABILITY, OF FITNESS FOR A PARTICULAR PURPOSE, OF ACCURACY OR COMPLETENESS OF RESPONSES, OF RESULTS, OF WORKMANLIKE EFFORT, OF LACK OF VIRUSES, AND OF LACK OF NEGLIGENCE, ALL WITH REGARD TO THE SOFTWARE AND THE PROVISION OF OR FAILURE TO PROVIDE SUPPORT SERVICES. ALSO, THERE IS NO WARRANTY OR CONDITION OF TITLE, QUIET ENJOYMENT, QUIET POSSESSION, CORRESPONDENCE TO DESCRIPTION OR NON-INFRINGEMENT WITH REGARD TO THE SOFTWARE.

EXCLUSION OF INCIDENTAL, CONSEQUENTIAL AND CERTAIN OTHER DAMAGES
TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL ACER, ACER'S SUPPLIERS, OR ACER'S LICENSORS, BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, PUNITIVE, OR CONSEQUENTIAL DAMAGES WHATSOEVER (INCLUDING, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF PROFITS OR CONFIDENTIAL OR OTHER INFORMATION, FOR BUSINESS INTERRUPTION, FOR PERSONAL INJURY, FOR LOSS OF PRIVACY, FOR FAILURE TO MEET ANY DUTY INCLUDING OF GOOD FAITH OR OF REASONABLE CARE, FOR NEGLIGENCE, AND FOR ANY OTHER PECUNIARY OR OTHER LOSS WHATSOEVER) ARISING OUT OF OR IN ANY WAY RELATED TO THE USE OF OR INABILITY TO USE THE SOFTWARE, THE PROVISION OF OR FAILURE TO PROVIDE SUPPORT SERVICES, OR OTHERWISE UNDER OR IN CONNECTION WITH ANY PROVISION OF THIS AGREEMENT, EVEN IN THE EVENT OF THE FAULT, TORT (INCLUDING
NEGLIGENCE), STRICT LIABILITY, BREACH OF CONTRACT OR BREACH OF WARRANTY
OF ACER OR ITS SUPPLIERS OR LICENSORS, AND EVEN IF ACER AND ITS SUPPLIERS
AND LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

LIMITATION OF LIABILITY AND REMEDIES

NOTWITHSTANDING ANY DAMAGES THAT YOU MIGHT INCUR FOR ANY REASON
WHATSOEVER (INCLUDING, WITHOUT LIMITATION, ALL DAMAGES REFERENCED ABOVE
AND ALL DIRECT OR GENERAL DAMAGES), THE ENTIRE LIABILITY OF ACER, ITS
SUPPLIERS, AND ITS LICENSORS, UNDER ANY PROVISION OF THIS AGREEMENT, AND
YOUR EXCLUSIVE REMEDY FOR ALL OF THE FOREGOING, SHALL BE LIMITED TO THE
AGGREGATE AMOUNT PAID BY YOU FOR THE SOFTWARE. THE FOREGOING
LIMITATIONS, EXCLUSIONS AND DISCLAIMERS (INCLUDING DISCLAIMER OF
WARRANTIES AND EXCLUSION OF INCIDENTAL, CONSEQUENTIAL AND CERTAIN OTHER
DAMAGES ABOVE) SHALL APPLY TO THE MAXIMUM EXTENT PERMITTED BY
APPLICABLE LAW, EVEN IF ANY REMEDY FAILS ITS ESSENTIAL PURPOSE; PROVIDED,
HOWEVER, THAT BECAUSE SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR
LIMITATION OR LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE
LIMITATION MAY NOT APPLY TO YOU.

TERMINATION

Without prejudice to any other rights, Acer may immediately terminate this Agreement without
notice if you fail to comply with any terms and conditions of this Agreement.

In such event, you must:
1. Cease all use of the Software;
2. Destroy or return to Acer the original and all copies of the Software; and
3. Delete the Software from all phones on which it was resident.

All disclaimers of warranties and limitation of liability set forth in this Agreement shall survive
termination of this Agreement.

GENERAL

This Agreement represents the complete agreement between you and Acer relating to this license
for the Software and supersedes all prior agreements, communications, proposals and
representations between the parties and prevails over any conflicting or additional terms of any
quote, order, acknowledgement or similar communication. This Agreement may only be modified
by a written document signed by both parties. If any provision of this Agreement is held by a court
of competent jurisdiction to be contrary to law that provision will be enforced to the maximum extent
permissible and the remaining provisions of this Agreement will remain in full force and effect.

ADDITIONAL PROVISIONS APPLICABLE TO THIRD PARTY SOFTWARE AND SERVICES

Software provided hereunder by Acer's licensors or suppliers ("Third Party Software") is made
available to you for your personal, non-commercial use only. You may not use the Third Party
Software in any manner that could damage, disable, overburden, or impair the services provided
by Acer's licensors or suppliers hereunder ("Third Party Services"). Furthermore, you may not use
the Third Party Software in any manner that could interfere with any other party's use and
enjoyment of the Third Party Services, or the services and products of Acer's licensors' or
suppliers' third party licensors. Your use of the Third Party Software and Third Party Services is
also subject to additional terms and conditions and policies which can be accessed through our
global website.

Privacy policy

During registration you will be asked to submit some information to Acer. Please refer to Acer's
privacy policy at www.acer.com or your local Acer website.
