Garmin-Asus A50 owner’s manual
Introduction

The Garmin-Asus A50 is a multimedia mobile phone with integrated navigation and services.

Getting Support

Go to www.garminasus.com for in-country support information.

Updating the Software

1. Go to www.garminasus.com/support.
2. Select your region.
3. Under the A50, click Software Updates.
4. Follow the on-screen instructions.

Buying Additional Maps

1. Go to www.garminasus.com/support.
2. Select your region.
3. Under the A50, click Map Updates.
4. Follow the on-screen instructions.

Getting Help

1. From the application tray, touch Help.
2. Touch a topic.

Getting Started

⚠️ WARNING
See the Important Safety and Product Information document in the product box for product warnings and other important information.

NOTICE
To avoid unexpected data charges, it is strongly recommended that you obtain a data plan for this phone.

</tr>
</tbody>
</table>
Getting Started

Setting Up the Device
1. Remove the battery cover (page 2).
2. Install the SIM card and optional microSD™ card (page 2).
3. Install the battery (page 2).
4. Replace the battery cover (page 3).
5. Charge the battery (page 3).
6. Register the device and check eligibility for a free map update (page 5).

Removing the Battery Cover
Slide the battery cover ① off the back of the device.

Installing the SIM and microSD Cards
1. Insert the SIM card ① in the holder with the gold contacts facing down and the notched corner toward the center of the device.
2. Insert the optional microSD card ② in the microSD slot with the gold contacts facing down.

Installing the Battery
1. Locate the battery that came in the product box.
2. Locate the metal contacts on the end of the battery and in the battery compartment.
3. Insert the battery ① with the Garmin-Asus logo facing up and the metal contacts on the battery aligned with the contacts in the battery compartment.

Repeating the Battery Cover
Slide the battery cover onto the back of the device until it clicks.

Charging the Battery

To ensure optimal performance, you should charge the battery for at least four hours before using the device on battery power for the first time.

If you completely discharge the battery, recharge it for at least 20 minutes before turning on your device.

1. Insert the plug into the AC power adapter, if necessary.
2. Plug the USB cable into the AC adapter.
3. Connect the mini-USB end of the USB cable to the connector on the device.
4. Plug the AC adapter into a power outlet.

NOTICE
Your device will not charge if it has exceeded 140°F (60°C). If the device is mounted in the windshield, remove it from the mount and place it somewhere out of direct sunlight to allow the battery to charge.
Alternate Charging Methods

There are several ways to charge the device in addition to the method described on page 3.

- (Preferred) Use the vehicle power cable connected to the cradle, with the device in the cradle.
- Use the vehicle power cable connected to the device (not the cradle).
- Use the USB cable connected to a computer and your device.
- Use the battery charger accessory. For more information about accessories, go to www.garminasus.com.

Mounting Your Device

**WARNING**

This product contains a lithium-ion battery. To prevent the possibility of personal injury or product damage caused by battery exposure to extreme heat, remove the device from the vehicle when exiting or store it out of direct sunlight.

1. Plug the vehicle power cable ➊ into the power connector on the back of the cradle ➋.
2. Remove the clear plastic from the suction cup➌.
3. Clean and dry your windshield and the suction cup with a lint-free cloth.
4. Place the suction cup on the windshield.
5. Flip the lever➍ back, toward the windshield.
6. Snap the cradle onto the suction cup arm.
7. Fit the gold contacts on the left side of your device into the cradle.
8. Tilt the device back until it snaps into the cradle.
9. Plug the other end of the vehicle power cable into a power outlet in your vehicle.

Registering Your Device
1. Go to www.garminasus.com/support.
2. Select your region, if necessary.
3. Under the A50, click Product Registration.
4. Follow the on-screen instructions. After registering, click Maps to see if you are eligible for one or more map updates.

Completing the Setup
Complete the following optional tasks to finish setting up your device:
• Set up voice mail (page 20).
• Set up an e-mail account (page 57).
• Synchronize the device (page 90).

</tbody>
</table>
Using the Home Screen
The Home screen is designed with several panes that can be customized.

- Drag ① toward the bottom of the screen to view notifications. The status bar displays notification icons, status icons, and the current time.
- Drag your finger across the screen ② to view the other Home screen panes.
- Touch any icon ③ on the Home screen to open the application.
- Touch ④ to open the phone application.
- Drag ⑤ toward the top of the screen to open the application tray (page 8).
- Touch ⑥ to view the Where To? pane.
Switching Home Screen Panes
Use any of the following options to switch to another pane:

- To switch to the next pane, slide your finger across the screen from right to left.
- To switch to the previous pane, slide your finger across the screen from left to right.
- To quickly switch to the Where To? pane, touch 🏡.
- To quickly switch to a specific pane, touch 🏡, and touch a pane.

About the Where To? Pane
The Where To? pane provides quick access to the navigation features of your device, such as the map, points of interest, and location search.

The Where To? pane is the far-left pane on the Home screen.

Using the Application Tray
The application tray contains shortcuts for the applications on the device.

**NOTE:** The application tray is available on all Home screen panes except for the Where To? pane.

1. From the Home screen, touch and drag the application tray toward the top of the screen.

2. Touch and drag to scroll through all of the shortcuts.
3. Touch a shortcut icon to start an application.

**Viewing Notifications**
When a notification icon appears in the status bar, open the notification window to view more information.

1. Touch and drag the status bar toward the bottom of the screen.
   The notification window expands to fill the screen.
2. Touch an item to view more details or to go to the application.

**Hiding the Notification Window**
Touch and drag the bottom of the notification window to the top of the screen.

---

**Setting the Notification Tone**
You can select a tone that sounds when you receive a notification.

1. From the Home screen, touch 📲 > Settings > Audio and Display > Notifications.
2. Touch a tone.
3. Touch Save.

**Setting the Default Ringtone**

1. From the Home screen, touch 📲 > Settings > Audio and Display > Phone Ringtone.
2. Touch a ringtone.
3. Touch Save.
Customizing the Home Screen
You can customize the Home screen to suit your needs.

**NOTE:** You cannot customize the Where To? pane.

Changing the Home Screen Wallpaper
1. From the Home screen, touch > Wallpaper.
2. Select an option.
3. Select an image to use as the wallpaper (background).
4. Touch Save or Set Wallpaper.

About the Home Screen Items
You can add widgets, shortcuts, and folders to a pane. Widgets are small applications that are attached to a pane. Shortcuts provide quick access to applications or other items in your phone. You can use folders to organize shortcuts or other items on the Home screen.

Adding Items to a Pane
1. From the Home screen, switch to the pane to which you want to add items.
2. Touch and hold an empty area of the pane.
3. Touch the type of item to add.
4. If necessary, enter additional information.

Removing Items from a Pane
1. From the Home screen, switch to the pane from which you want to remove items.
2. Touch and hold the item to remove.
3. Drag the item to 

Adding Home Screen Folders
You can use folders to organize content on the Home screen.

1. From the Home screen, switch to the pane to which you want to add a folder.
2. Touch and hold an empty area of the pane.
3. Touch Folders.
4. Touch the type of folder that you want to add.
5. If necessary, enter a folder name, and touch OK.

You can drag a shortcut onto the folder to add the shortcut to the folder.

Renaming a Home Screen Folder
Before you can rename a folder, you must add a folder to the Home screen.

1. From the Home screen, touch the folder.
2. Touch and hold the folder name at the top of the folder window.
3. Enter the name, and touch OK.

Arranging Items on the Home Screen
You can move widgets, shortcuts, and folders to arrange them on the Home screen.

1. Touch and hold the item you want to move until the device vibrates.
2. Drag the item to a new location.
   • To move an item to an adjacent pane, drag the item to the edge of the screen, and hold it until the adjacent pane appears.
   • To move a shortcut into a folder, drag the shortcut onto the folder.
Changing the Volume
You can change the volume for certain features, such as the ringer, music player, navigation prompts, and messaging notifications.

1. Open the application for which you want to change the volume.
2. Press the Volume Up or Volume Down key.
   
   **TIP:** You can also access the volume settings from the application tray. Touch Settings > Audio and Display > Volume Levels.
3. Select an option:
   - Continue pressing the Volume Up or Volume Down key to adjust the volume.
   - Touch \(\mathbb{M} \) to quickly turn on the ringer, when available.
   - Touch \(\mathbb{M} \) to set the ringer to vibrate, when available.
   - Touch \(\mathbb{M} \) to set the ringer to ring and vibrate, when available.
   - Touch \(\mathbb{M} \) to silence the ringer, when available.

Rotating the Device
**NOTE:** Some applications can be viewed in one orientation only. For example, the camera is available in landscape mode only.

Rotate the handset to alternate between vertical (portrait) mode and horizontal (landscape) mode.

**TIP:** To change the rotation settings, from the Home screen, touch \(\mathbb{M} \) > Settings > Audio and Display > Orientation.
Using the Touchscreen

**NOTE:** The touchscreen requires direct contact with your skin. The device does not respond if you touch the touchscreen with your fingernail or with a glove.

- Touch and drag your finger to slowly scroll the screen.
- Scroll the screen both vertically and horizontally, when available.
- Touch, drag, and quickly remove your finger (flick the screen) to quickly scroll the screen.
- Touch the screen to stop scrolling.
- Touch two points near the center of the page, and drag your fingers apart to zoom in, when available.
- Touch two points near opposite edges of the page, and drag your fingers toward the center of the page to zoom out, when available.

Using the On-screen Keyboard

A keyboard appears when you need to enter text.

- Touch a key to enter text.
- Touch 🔄 to backspace.
- Touch ⇧ to shift.
- Touch ⌘ to turn on caps lock.
- Touch 📦 to close the keyboard.
- Touch 123 to display numbers and symbols.
- Touch ABC to display an alphabetic keyboard.
- Touch 🌐 to change the keyboard, if more than one keyboard is enabled (page 108).
- Touch the text or numbers on the screen to insert a cursor.
Using Text Completion
The device includes a text-completion feature that recognizes words you are typing.

**NOTE:** To adjust the text-completion settings, see page 108.

1. Begin typing a word.
   A row of suggested auto-text words appears above the keyboard. The closest match is highlighted.
2. Continue typing.
   The text-completion words may change or disappear.
3. Touch a text-completion word to accept it.
   **NOTE:** The highlighted word is inserted automatically when you enter a space or a punctuation mark.

Selecting an Input Method
The device includes multiple input methods, such as text editing and language-specific keyboards.

Before you can select an input method, you must enable additional input methods using the keyboard settings (page 108).

1. Touch and hold a text field.
2. Touch **Input Method**.
3. Select an option.

About the Automatic Screen Lock
The device automatically locks if you do not use it for a specified amount of time.

If the device is in the mount with external power, the screen will not automatically lock.
Manually Locking the Device
Press the **Power** key.

Unlocking the Device
To adjust the unlock settings, see page 106.

1. Quickly press the **Power** key, if necessary.
2. Tap and drag to the right.

Adjusting the Screen Timeout Length
1. From the Home screen, touch **Settings** > **Audio and Display** > **Screen Timeout**.
2. Select a time.
3. Touch **Save**.

About the Headset
You can use the wired headset (included in some packages) or a Bluetooth wireless headset to listen to audio and talk on the phone.

To connect a Bluetooth headset, see page 91. For information on using a Bluetooth headset, see the instructions that came with the headset.

Connecting the Headset
Connect the mini-USB headset connector to the audio-out connector on the device.

Using the Headset
- Press the button on the headset to answer a call.
- Speak into the adapter on the headset, which contains the microphone.
- Use the **Volume** knob to adjust the audio volume.

Using the Phone

Dialing a Number
1. Touch 🔄 > 📞.
2. Dial the number.
3. Touch Call.

Calling a Found Location
You can call a location that you have found in the Where To? menu if the location has a phone number associated with it.
1. From the Home screen, touch 🔄.
2. Find a location (page 30).
3. Touch Call.

Using In-Call Options

While you are in a call, use the following options:

- Touch **Speakerphone** to activate the speakerphone.
- Touch **Audio** to select the audio output when a wireless hands-free device is connected (page 91).
- Touch **Mute** to mute the audio input.
• Touch Add Call to place a new call.

The first call is placed on hold:
  ◦ Touch Switch to change between the current call and the call on hold, if you are on call waiting.
  ◦ Touch Merge to create a conference call.

• Touch Hold to place the current call on hold.

• Touch to display a numeric keypad for automated systems that require numeric entries.

Ending a Call
Touch End Call.

Answering a Call
• If the screen is locked, drag to the right.

• If the screen is unlocked, touch Answer.

Silencing an Incoming Call
When you receive a call, press the Volume Up or Volume Down key.

Sending an Incoming Call to Voice Mail
There are a few ways to send an incoming call to voice mail.

• Press the Power key.

• If the screen is locked, drag to the left.

• If the screen is unlocked, touch Ignore.
**Activating Call Waiting**

From the Home screen, touch 📞 > Settings > Phone > Call Waiting > On > Save.

**Using Call Waiting**

If call waiting is activated, use these call waiting options when you receive an incoming call.

- Touch **Answer + Hold** to answer the new call and place the original call on hold:
  - Touch **Merge** to create a conference call with the original call and the new call.
  - Touch **Switch** to switch between the original call and the new call.
- Touch **Answer + End** to answer the new call and end the original call.
- Touch **Ignore** to send the new call to your voice mail.

**Setting Up Voice Mail**

1. From the Home screen, touch 📞 > Settings > Phone > Voice Mail Number.
2. Verify that your voice mail number is correct.
3. Touch 📞 > 📡.
4. Touch and hold 1.
5. Follow the voice prompts.

**Calling Voice Mail**

When you have new voice mail, 📡 appears in the status bar.

1. Touch and drag the status bar toward the bottom of the screen.
2. Touch **New Voice Mail**.

**TIP**: You can also touch Call > 📡 > 1 to call your voice mail.
Using Call History

1. Touch 📞 > 📞. Calls are organized into three categories:

<table>
<thead>
<tr>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>📞</td>
<td>Dialed call</td>
</tr>
<tr>
<td>📞</td>
<td>Received call</td>
</tr>
<tr>
<td>✘</td>
<td>Missed call</td>
</tr>
</tbody>
</table>

2. Touch a call.

3. Select an option.

Calling a Number using Call History

1. Touch 📞 > 📞.

2. Touch 📞 next to the number or contact.

Deleting a Call from the Call History

1. Touch 📞 > 📞.

2. Touch a call.

3. Touch ☐ > Delete from Call History > OK.

Adding a Number in Call History to Contacts

1. Touch 📞 > 📞.

2. Touch a call.

3. Touch ☐ > Add to Contacts > Create new contact.

4. Touch a phone type.

5. Touch Name, enter a name, and touch Next.

6. If necessary, enter more contact information.

7. Touch Save.
Viewing Related Calls
Related calls are calls made to or received from the same number, which is displayed as one item in the call history.

1. Touch 📞 > 📞.
2. Touch a call.
3. Touch ☐ > View Related Calls.

A list of related calls appears showing the length of each call or a status message.

Using Reverse Lookup
This service is not available in all areas. This service may be available as a paid subscription. A data connection is required for this feature. Your regular data usage charges apply.

A reverse lookup allows you to search for the address of a phone number that called you.

1. Touch 📞 > 📞.
2. Touch a call.
3. Touch ☐ > Reverse Lookup.

Deleting All Calls from the Call History
Touch 📞 > 📞 > ☐ > Clear Call Log.

Placing a Conference Call
You can host a conference call with two other callers.

TIP: If you receive a call while you are already on another call, you can start a conference call by touching Merge.

1. Place a call to the first phone number.
2. Touch Add Call.
3. Place a call to the second phone number.
4. Touch Merge.
5. Touch 📞 to view the other members of the conference call (optional).

**Speaking Privately During a Conference Call**

You can speak privately with another member of the conference call.

1. During the conference call, touch 📞.
2. Touch ☑ next to the contact with whom you would like to speak.
   The other members of the conference call can continue to speak to each other.
3. Touch Merge to end the private conversation.

**Forwarding Calls**

1. From the Home screen, touch ☢ > Settings > Phone > Call Forwarding.
2. Select a forwarding option.
3. Enter a number to forward calls to.

**Barring Calls**

Before you can bar incoming calls and outgoing calls, you must obtain the call-barring password from your service provider.

1. From the Home screen, touch ☢ > Settings > Phone > Call Barring.
2. Touch a call type.
3. Select an option.
4. Touch Save.
5. Enter the call-barring password.
6. Touch OK.
Using the Phone

Turning On Airplane Mode
Airplane mode turns off the phone and data connections for situations such as an airplane flight.

   From the Home screen, touch > Settings > Wireless Manager > Airplane Mode.

When Airplane mode is on, the telephone, the network, and Bluetooth features are deactivated. You cannot send or receive calls, e-mail messages, or SMS/MMS messages.

Multitasking
Use the keys to help you multi-task.

Placing a Call While Navigating
1. If you are driving, pull over and stop.
2. Touch , and place the call.
3. Touch to return to the map.
4. Carry on your conversation using the speakerphone.

Answering a Call While on the Web
1. While browsing the Internet, touch Answer when the phone rings.
2. Touch to return to the browser.
3. Carry on your conversation using the speakerphone.

Placing a Call While on the Web
1. While browsing the Internet, touch , and place the call.
2. Touch to return to the browser.
3. Carry on your conversation using the speakerphone.

Ending a Call While Multitasking
To hang up, touch > End Call.
Managing Your Contacts

Adding a Contact
1. From the application tray, touch Contacts >.
2. Enter the contact information.
3. Touch Save.

Adding a Number in Call History to Contacts
1. Touch >.
2. Touch a call.
3. Touch > Add to Contacts > Create new contact.
4. Touch a phone type.
5. Touch Name, enter a name, and touch Next.
6. If necessary, enter more contact information.
7. Touch Save.

Calling a Contact
1. Touch >.
   TIP: You can also open Contacts using the application tray.
2. Touch a contact.
3. Touch Call.
4. If the contact has more than one phone number, touch the phone number to call.

Searching for a Contact
1. From the application tray, touch Contacts >.
2. Enter part of the contact name.
3. Touch the contact.
Managing Your Contacts

Using the Contact Shortcut Menu
1. From the application tray, touch Contacts.
2. Touch the contact image.

A shortcut menu opens, which provides quick access to commonly used items relating to contacts.
3. Touch an icon.

Editing and Deleting Contacts

Editing a Contact
1. From the application tray, touch Contacts.
2. Touch a contact.
3. Touch > Edit.
4. Edit the contact:
   • Touch an item to edit the information.
   • Touch to delete the information.
5. Touch Save.

Adding a Picture for a Contact
1. From the application tray, touch Contacts.
2. Touch a contact.
3. Touch > Edit.
4. Touch the picture of the contact.
5. Select an option: Take a Photo or Select Photo from Gallery.

6. Take or choose a picture.

7. Touch and drag the square to crop the picture, and touch Save.

8. Touch Save.

Assigning a Location to a Contact
1. From the application tray, touch Contacts.

2. Touch a contact.

3. Touch > edit > Add Address > .

4. Select the location:
   • Touch the location on the map.
   • Touch , and search for the location.

5. Touch Select this Location > Save.

Setting a Ringtone for a Contact
1. From the application tray, touch Contacts.

2. Touch a contact.

3. Touch More Info >  > Contact Options > Ringtone.

4. Touch a ringtone.

5. Touch Save.

Sending all Calls from a Contact to Voice Mail
1. From the application tray, touch Contacts.

2. Touch a contact.

4. Select the Incoming Calls check box.
Deleting a Contact
1. From the application tray, touch Contacts.
2. Touch a contact.
3. Touch ☐ > Delete > OK.

Starting a Route to a Contact
Before you can start a route to a contact, you should assign a location for the contact (page 27).
1. From the application tray, touch Contacts.
2. Touch a contact.
3. Touch Go!.

Managing Your SIM Contacts

Importing Contacts from Your SIM Card
1. From the application tray, touch Contacts.
2. Touch ☐ > SIM Phone Book > Import Contacts from SIM.
3. Touch a method to import contacts:
   • Touch Import All Contacts.
   • Select the check box for the contact.
4. Touch Import.

Exporting Contacts to Your SIM Card
1. From the application tray, touch Contacts.
2. Touch ☐ > SIM Phone Book > Export Contacts to SIM.
3. Touch a method to export contacts:
   • Touch Export All Contacts.
Managing Your Contacts

- Select the check box for the contact.

4. Touch Export.

Creating a New SIM Contact
1. From the application tray, touch Contacts.
2. Touch SIM Phone Book > View SIM Contacts > Create New SIM Contact.
3. Touch Name, enter the name, and touch Done.
4. Touch Primary Number, enter the phone number, and touch Done.
5. Touch Done.

Call or Send a Message to a SIM Contact
1. From the application tray, touch Contacts.
2. Touch SIM Phone Book > View SIM Contacts.
3. Touch a contact.

4. Touch Call or Send Message.

Editing Contacts on Your SIM Card
1. From the application tray, touch Contacts.
2. Touch SIM Phone Book > View SIM Contacts.
3. Touch a contact.
4. Touch Edit.
5. Edit the information as needed.
6. Touch Done.

Deleting Contacts on Your SIM Card
1. From the application tray, touch Contacts.
2. Touch SIM Phone Book > View SIM Contacts.
3. Touch a contact.
4. Touch Delete > OK.
Searching for Locations

The Where To? menu provides several different categories you can use to search for locations and destinations.

About GPS Signals

Before you can navigate or use location-based applications, your device must acquire satellite signals.

When you start an application that requires GPS signals, the device begins acquiring satellite signals. Acquiring satellite signals can take a few minutes.

**TIP:** If you are having difficulty acquiring satellite signals, go outdoors to an open area, away from tall buildings and trees.

For more information on GPS satellite signals, see page 111 and page 117.

Finding a Point of Interest

The detailed maps loaded in your device contain points of interest, such as restaurants, hotels, and auto services.

Finding a Point of Interest by Category

1. From the Home screen, touch 🚁 to view the Where To? pane.
2. Touch **Browse Places**.
3. Touch a category.
4. Touch a subcategory, if necessary.
   A list of items near your current location appears.
5. Touch a location.
Finding by Spelling the Name
1. From the Home screen, touch to view the Where To? pane.
2. Touch the text entry field.
3. Enter part or all of the location name, and touch .
4. Touch a location.

Working with Found Locations
After you find a location, the location appears on the map. An information balloon displays the name of the location.

- Touch  to view the other locations on the map.
- Touch  to view additional details, such as the address and the phone number, if known.
- Touch  to create a route to the location.
- Touch  to dial the phone number of the location, if available.

Starting a Route to a Location
1. Find a location (page 30).
2. Touch Go!.
3. Touch a navigation mode, if necessary.

Calling a Location
1. Find a location (page 30).
2. Touch Call.
Searching for Locations

Finding a Nearby Location
1. Find a location (page 30).
2. Touch > Search Near.
3. Select an option.

Adding a Location to Contacts
1. Find a location (page 30).
2. Touch the information balloon.
3. Touch > Add to Contacts.
4. Select an option.

Changing the Search Area
By default, your device finds locations near your current location.
1. From the Home screen, touch to view the Where To? pane.
2. Touch Browse Places > > Change Location.
3. Select the location:
   • Touch the location on the map.
   • Touch , and search for the location.
4. Touch Select this Location.

Saving and Editing Locations

Saving a Found Location
1. Find a location (page 30).
2. Touch the information balloon.
3. Touch Save.

Saving Your Current Location
1. From the Home screen, touch to view the Where To? pane.
2. Touch View Map.
3. Touch the vehicle icon.
4. Touch Save.
5. Enter a name, and touch Done, if necessary.

Finding Saved Locations
To save a location, see page 32.
1. From the Home screen, touch to view the Where To? pane.
2. Touch **Browse Places > Saved Locations**.

3. Touch the left or right arrow to search different categories, if necessary.

4. Touch an item.

**Editing Saved Locations**
1. From the Home screen, touch 📍 to view the Where To? pane.

2. Touch **Browse Places > Saved Locations**.

3. Touch and hold a location.

4. Touch **Edit**.

5. Touch an item to edit it.

6. Touch **Save**.

**Deleting a Saved Location**
1. From the Home screen, touch 📍 to view the Where To? pane.

2. Touch **Browse Places > Saved Locations**.

3. Touch and hold a location.

4. Touch **Delete > Confirm**.

**Creating Categories**
When you save a location, it is automatically assigned to a category. You can create your own categories to help organize your saved locations.

1. From the Home screen, touch 📍 to view the Where To? pane.

2. Touch **Browse Places > Saved Locations**.

3. Touch and hold a location.

4. Touch **Edit > Categories > Enter New Category**.

5. Enter a name for the category, and touch **OK**.

6. Touch **Done > Save**.

**Assigning Saved Locations to Categories**
1. From the Home screen, touch 📍 to view the Where To? pane.
Searching for Locations

2. Touch **Browse Places > Saved Locations**.
3. Touch and hold a location.
4. Touch **Edit > Categories**.
5. Touch the categories to assign to this location.
6. Touch **Done > Save**.

**Sharing Locations**

**Sharing a Found Location**
1. Find a location (page 30).
2. Touch the information balloon.
3. Touch **Share**, and select an option to send the location.
4. Touch **To**, add a recipient, and touch **Done**.
5. Touch **Message**, enter a message, and touch **Done**.
6. Touch **Send**.

**Sharing Your Current Location**
1. From the application tray screen, touch **Where Am I?**.
2. Touch **Share**.
3. Select an option to send the location.
4. Touch **To**, add a recipient, and touch **Done**.
5. Touch **Message**, enter a message, and touch **Done**.
6. Touch **Send**.

**Finding Your Parking Spot**

**About the Parking Spot Feature**
When the My Parking Spot feature is enabled, the location of your parking spot is saved automatically if you are receiving satellite signals when you remove the device from the cradle.

When your parking spot is saved, \[P\] appears in the status bar.
Starting a Route to Your Parking Spot
1. Touch and drag the status bar toward the bottom of the screen.
   **TIP:** You can also access your Parking Spot from **Browse Places > Saved Locations**.
2. Touch **Saved Parking Spot > Go!**.

Finding Your Current Location
Use the Where Am I? page to view information about your current location. This is a helpful feature if you need to tell emergency personnel your location.

1. From the application tray, touch **Where Am I?**.
2. Touch the information balloon to open the Where Am I? page to view your location coordinates and nearby items, such as fuel stations.

**TIP:** You can also open the Where Am I? page by touching the vehicle icon on the map.

Setting Your Home Location
You can save a home location and quickly generate a route to it.

1. From the Home screen, touch to view the Where To? pane.
2. Touch **Browse Places > Home**.
3. Select an option.

Starting a Route to Your Home
Before you can create a route to your home location, you must set your home location.

1. From the Home screen, touch to view the Where To? pane.
2. Touch **Browse Places > Home > Go!**.
Searching for Locations

Finding an Address

**NOTE:** Depending on the version of the built-in map data on your device, the button names and the order of steps could be different than the following steps.

1. From the Home screen, touch to view the Where To? pane.
2. Touch **Browse Places > Address**.
   **TIP:** To change the search area, touch **Change State/Country**, and touch a state, province, or country.
3. Touch **Enter House Number**, enter the house number, and touch **Next**.
4. Enter all or part of the street name or number, and touch **Done**.
5. Touch the street, if necessary.
6. Enter or touch the correct city, if necessary.
7. Touch the correct address, if necessary.

Finding Local Businesses

Local search enables you to search for local businesses. In addition to searching by spelling the name of a location, you can also spell the names of categories, like “salon” or “coffee.”

This service is not available in all areas. A data connection is required for this feature. Your regular data usage charges apply.

1. From the Home screen, touch to view the Where To? pane.
2. Touch **Browse Places > Local Search**.
3. Enter your search term, and touch **Search**.
4. Touch an item.
**Finding Recently Found Locations**

Your device stores the last 50 locations you have found.

1. From the Home screen, touch 🌐 to view the Where To? pane.
2. Touch **Browse Places > Recently Found**.
3. Touch a location.

**Clearing the Recently Found List**

1. From the Home screen, touch 🌐 to view the Where To? pane.
2. Touch **Browse Places > Recently Found**.
3. Touch 📀 > **Clear > OK**.

The list of recently found locations is cleared. These locations are not deleted from the map data.

---

**Finding Upcoming Events**

Search for upcoming events, such as art shows and sporting events.

This service is not available in all areas. This service may be available as a paid subscription. A data connection is required for this feature. Your regular data usage charges apply.

1. From the Home screen, touch 🌐 to view the Where To? pane.
2. Touch **Browse Places > Upcoming Events**.
3. Touch a category.
4. Touch the arrows or the date to select a different date, if necessary.
5. Touch an event to view more information.
6. Select an option:
   - If the event begins within two hours, touch **Go!** to navigate to the event.
• If the event begins in more than two hours, touch **Remind Me!** to add the event as an appointment on your calendar.

### Finding Panoramio™ Photos

Panoramio photographs contain information about the location where the photograph was taken. You can use this information to navigate to locations and landmarks shown in Panoramio photographs.

This service is not available in all areas. A data connection is required for this feature.

1. From the Home screen, touch to view the Where To? pane.
2. Touch **Browse Places > Panoramio**.
   A list of photographs from nearby locations appears.
3. Touch a photograph.

### Finding Fuel Prices

This service is not available in all areas. This service may be available as a paid subscription. A data connection is required for this feature. Your regular data usage charges apply.

1. From the Home screen, touch to view the Where To? pane.
2. Touch **Browse Places > Fuel Prices**.
   A list of fuel prices near your current location appears.

### Changing the Fuel Type

1. From the Home screen, touch to view the Where To? pane.
2. Touch **Browse Places > Gas Prices**.
3. Touch **», and select a fuel type.**
Finding Cities
1. From the Home screen, touch to view the Where To? pane.
3. Enter the name, and touch Done.
   TIP: To view a list of nearby cities, touch > Nearby Cities.
4. Touch a city.

Using the White Pages Phone Directory
This service is not available in all areas. This service may be available as a paid subscription. A data connection is required for this feature. Your regular data usage charges apply.

Finding by Name
1. From the Home screen, touch to view the Where To? pane.
2. Touch Browse Places > White Pages > By Name.
3. Enter all or part of the last name, and touch Next.
4. Enter all or part of the first name (optional), and touch Done.
5. Touch Search.
6. Enter the postal code, if necessary.

Finding by Phone Number
This service may not be available for all phone numbers.
1. From the Home screen, touch to view the Where To? pane.
2. Touch Browse Places > White Pages > By Phone Number.
3. Enter the area code and phone number.
4. Touch Search.
Searching for Locations

**Entering Coordinates**
If you know the geographic coordinates of your destination, you can use your device to navigate there. This can be especially helpful when geocaching.

1. From the Home screen, touch 📢 to view the Where To? pane.
2. Touch **Browse Places > Coordinates**.
3. Touch a cardinal-direction button to change the direction.
4. Touch a field to enter the latitude and longitude data.
5. Touch **View Map**.

**Changing the Map Coordinate Format**

1. From the Home screen, touch 📢 to view the Where To? pane.
2. Touch **Browse Places > Coordinates > Coordinate Format**.

3. Touch a format.

**Finding Intersections**

1. From the Home screen, touch 📢 to view the Where To? pane.
2. Touch **Browse Places > Intersections**.
3. If necessary, touch **Change State/Country** to change the state, country, or province.
4. Touch **Enter Street 1**.
5. Enter all or part of the street name.
6. Touch the correct street.
7. Repeat for the second street.
8. Touch the correct intersection, if necessary.
About Extras
You can download additional content, such as custom POIs, from www.garminasus.com.

Custom POIs are customized points on the map. They can contain alerts that let you know if you are near a designated point or if you are traveling faster than a specified speed.

You can create or download custom POI lists and install them on your device using POI Loader software available at www.garminasus.com. See the POI Loader Help file for more information.

Finding Extras
1. From the Home screen, touch to view the Where To? pane.
2. Touch Browse Places > Extras.
3. Touch a category.
Following Your Route

Before you can navigate with your device, you must acquire satellites (page 30).

About the Map

**NOTICE**

The speed-limit icon feature is for information only and does not replace the driver’s responsibility to abide by all posted speed-limit signs and to use safe driving judgment at all times. Garmin will not be responsible for any traffic fines or citations that you may receive for failing to follow all applicable traffic laws and signs.

From the Home screen, touch 🗺 > **View Map** to display your current location. The vehicle icon displays your position on the map. A speed-limit icon may appear as you travel on major roadways.

---

Using the Map

1. From the Home screen, touch 🗺 to view the Where To? pane.
2. Touch **View Map**.
3. Touch anywhere on the map.
   - Touch and drag to view different parts of the map.
   - Touch ‹ and › to zoom in and out.
Following Your Route

- As you zoom out, the map changes to a digital elevation map showing the contours of the area.
- Zoom far out to view a globe. Touch and drag to spin the globe.
  - Touch 🎯 to rotate the map.
  - Touch 🧐 to view the map in two dimensions.
  - Touch 🏝️ to view the map in three dimensions.
  - Touch 🡿 to center the map on your location.
  - Touch anywhere on the map. An arrow points to the location.
  - Touch ☰️ for more options.

**NOTE**: You can only see detailed map information for areas for which you have maps loaded on your device.

---

**About Usage Modes**

You can navigate to a destination in Driving mode or in Walking mode. The navigation tools vary slightly based on your usage mode.

In Driving mode, your device calculates routes for automobiles. These routes obey traffic rules, such as for one-way streets. Your device uses typical automobile speeds when estimating your arrival time.

In Walking mode, your device calculates routes for walking. These routes avoid highways in favor of smaller streets. Your device uses typical walking speeds when estimating your arrival time. If you have cityXplorer™ maps installed, your device may include public transit systems in walking routes.
Navigating in Driving Mode

Starting a Route in Driving Mode
1. From the Home screen, touch 📍 to view the Where To? pane.
2. Find a location (page 30).
3. Touch Go! > Driving.

   NOTE: When the device is in the mount, Driving is automatically selected.

The device creates a route to the location and opens the map.

Using the Map to Navigate in Driving Mode
Your route is marked with a magenta line.

As you travel, your device guides you to your destination with voice prompts, arrows on the map, and directions at the top of the map.

If you deviate from the original route, your device recalculates the route and provides new directions.

- Touch ① to view the next turn.
- Touch ② to view the route details.
- Touch ③ to view the Traffic menu, when available. Traffic services require an additional subscription and data plan charges.
- Touch ④ to open the Where Am I? page.
- Touch ⑤ to view the trip computer.
Viewing the Route Details
When you are navigating in Driving mode, you can view all of the turns for your entire route and the distance between turns.

1. While navigating to a destination, touch the text bar on the top of the map.

2. Touch a turn on the list to view details for the turn.

Viewing the Entire Route on the Map
1. From the map, touch the text bar on the top of the screen.

2. Touch View Map. The map appears with your route marked with a magenta line.

Viewing the Next Turn
When you are navigating in Driving mode, you can view the turn on the map and the distance and time left before you reach the turn.

1. While navigating to a destination, touch the turn indicator on the map.

2. Touch the arrows to see more turns in the route.

Viewing the Trip Computer in Driving Mode
The trip computer displays a compass, your current speed, and other helpful statistics about your trip.

While you are navigating in Driving mode, from the map, touch Speed.
Resetting the Trip Computer in Driving Mode
Reset the trip computer before beginning a trip.

1. While you are navigating in Driving mode, from the map, touch Speed >.
2. Touch an item to reset.

Avoiding Road Features
1. From the Home screen, touch > Settings > Navigation > Avoidances.
2. Select the check boxes to mark the road features to avoid.

About Traffic
This service is not available in all areas. This service may be available as a paid subscription. A data connection is required for this feature. Your regular data usage charges apply.

NOTE: Garmin and ASUS are not responsible for the accuracy of the traffic information.

Turning on Traffic
Before you can receive traffic information, you must turn on background data.

1. From the Home screen, touch > Settings > Navigation.
2. Select the Background Data check box.
About the Traffic Icon
The traffic icon on the map changes color to indicate the severity of traffic conditions.

<table>
<thead>
<tr>
<th>Icon</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gray</td>
<td>Traffic information is not available.</td>
</tr>
<tr>
<td>Green</td>
<td>Traffic is flowing freely.</td>
</tr>
<tr>
<td>Yellow</td>
<td>Traffic is moving but there is a delay. There is moderate traffic congestion.</td>
</tr>
<tr>
<td>Red</td>
<td>Traffic is not moving or is moving very slowly. There is a severe delay.</td>
</tr>
</tbody>
</table>

Traffic on Your Route
When calculating your route, the device examines the current traffic and automatically optimizes the route for the shortest time. If a severe traffic delay occurs on your route while you are navigating, the device automatically recalculates the route. You might still be routed through traffic if no better alternative routes exist.

If a non-severe traffic delay occurs on your route, the traffic icon displays how much time the delay has added to your route. This time is already included in your estimated arrival time.

Avoiding Traffic Automatically
You can enable the device to automatically avoid traffic.

1. From the Home screen, touch ☰ > Settings > Navigation > Avoidances.
2. Select the Traffic check box.
Manually Avoiding Traffic on Your Route
1. While you are navigating in Driving mode, from the map, touch the traffic icon.
2. Touch Traffic On Route.
3. Touch the arrows to select a traffic delay, if necessary.
4. Touch ☐ > Avoid to avoid the selected traffic delay.

You might still be routed through traffic if no better alternative routes exist.

Viewing the Traffic Map
The traffic map displays color-coded traffic flow and delays on nearby roads.

To return to the normal map, touch the traffic icon, and touch Show Normal Map.

1. On the map, touch the traffic icon.
2. Touch Show Traffic Map.

Viewing Traffic Delays
1. On the Map page, touch the traffic icon.
2. Touch Traffic Search to view a list of traffic delays.
3. Touch an item to view the delay on a map and details about the delay.
4. If there is more than one delay, touch the arrows to view the additional delays.

Navigating in Walking Mode
Starting a Route in Walking Mode
1. From the Home screen, touch 🚶 to view the Where To? pane.
2. Find a location (page 30).
3. Touch Go! > Walking.

NOTE: The device must be out of the mount to be able to select Walking.
The device creates a route to the location and opens the map.

**Using the Map to Navigate in Walking Mode**
Your route is marked with a magenta line.

- Touch ➊ to view the next turn or previous turn.
- Touch ➋ to view the itinerary page.
- Touch ➌ to view the Where Am I? page.

**Viewing the Itinerary Page**
While navigating a route in Walking mode, touch ￼ > View Itinerary.

**Using the Compass to Navigate**
1. From the Map page, touch ￼ > Trip Computer.
   As you travel, the compass rotates to indicate your direction of travel.
2. Move in a circle until the arrow points at the bug indicator.
   The bug indicator is the inverted triangle at the top of the compass, which indicates your current heading.
3. Continue traveling in this direction, toward your destination.
Calibrating the Compass
1. From the Home screen, touch ⬅️ to view the Where To? pane.
2. Touch View Map > ⬉️ > Trip Computer > ⬉️ > Calibrate Compass.
3. Follow the on-screen instructions.

Resetting the Trip Computer in Walking Mode
Reset the trip computer before beginning a trip.
1. From the Home screen, touch View Map > ⬉️ > Trip Computer > ⬉️.
2. Touch an item to reset.

Taking a Detour
While navigating a route, you can use detours to avoid obstacles ahead of you, such as construction zones.
1. While navigating a route, touch ⬜️.
2. Touch and drag the status bar toward the bottom of the screen. The notification window opens.
3. Select an option:
   • Touch Detour when in Driving mode.
   • Touch Recalculate when in Walking mode.
If the route you are currently taking is the only reasonable option, the device might not calculate a detour.

Stopping the Route
1. While navigating a route, touch ⬛️.
2. Touch and drag the status bar toward the bottom of the screen. The notification window opens.
3. Touch Stop.
Working with Routes

Adding Points to the Active Route
1. While navigating a route, touch \( \text{home} \).
2. From the Home screen, touch \( \text{search} \) to view the Where To? pane.
3. Find a location (page 30).
4. Touch the intermediate destination.
5. Touch Go! > Insert Via Point.

Planning a New Route
1. From the application tray, touch Routes > Create New Route.
2. Touch the text field, and enter a route name.
3. Touch Add Location.
4. Select the location:
   - Touch the location on the map.
   - Touch \( \text{search} \), and search for the location.
5. Touch Select this Location.
6. Repeat steps 3–5 as necessary.
7. Touch Save.

Editing a Route
1. From the application tray, touch Routes.
2. Touch a route.
3. Touch Edit.
4. Edit the route:
   - Touch Add Location to add more locations.
   - Touch and drag \( \text{up} \) or \( \text{down} \) to move the location down or up in the route.
   - Touch \( \text{delete} \) to delete a location.
Following Your Route

**Optimizing and Reversing a Saved Route**
1. From the application tray, touch Routes.
2. Touch a route.
3. Touch Edit >.
4. Touch Optimize Route or Reverse Route.
5. Touch Save.

**Deleting a Saved Route**
1. From the application tray, touch Routes.
2. Touch a route.
3. Touch Edit > Edit > Delete Route > OK.

**Starting to Navigate a Saved Route**
1. From the application tray, touch Routes.
2. Touch a route.
3. Touch Go!. 

**Viewing Your Trip Log**
You can record the path you travel (called a trip log) and display it as a dotted line on the map.
1. From the Home screen, touch > Settings > Navigation.
2. Select the Trip Log check box for the Automobile and/or Pedestrian settings.

The trip log appears on the map.

**Clearing the Trip Log**
From the Home screen, touch > Settings > Navigation > > Clear Trip Log.
Sending and Receiving Messages

Your regular messaging fees apply when sending and receiving messages.

Sending a Text Message

You can send Short Message Service (SMS) text messages.

1. From the application tray, touch Messaging > New Text Message.
2. Enter a phone number or a contact name, and touch a recipient.
3. Enter the text message.
4. Touch ☐ for additional options.
5. Touch Send.

About Multimedia Messages

A multimedia (MMS) message is similar to a text message, but it includes an attachment, such as a photo, a video, a contact, or a calendar event.

Sending an MMS

1. From the application tray, touch Messaging > New Text Message.
2. Enter a phone number or a contact name, and touch a recipient.
3. Enter the text message.
4. Touch ☐ > Attach.
5. Touch a media type.
6. Touch the file to attach.
7. Touch Send.
Sending and Receiving Messages

**Sending a Location Message**

⚠️ **CAUTION**
Use caution when sharing your location information with others.

Location messages allow you to send your current location information to other people.

1. From the application tray, touch **Messaging > New Text Message**.
2. Enter a phone number or a contact name, and touch a recipient.
3. Enter the text message.
4. Touch 🔄.
5. Select the location:
   - Touch the location on the map.
   - Touch 🔍, and search for the location.
6. Touch **Select this Location**.
7. Touch **Send**.

---

**Reading Messages**

A number on the Messaging icon displays the number of unread messages in your inbox.

1. From the Home screen, touch **Messaging**.
   The inbox opens, containing SMS and MMS messages received from other devices.
   Unread messages are displayed in bold.
2. Touch a message to read it.
   **TIP**: Touch and hold a message to view more options.
3. Touch ☐️ for more options.
Replying to a Message
1. From the Home screen, touch Messaging.
2. Touch a message.
3. Touch the data-entry field.
4. Enter a message.
5. Touch Send.

Forwarding a Message
1. From the Home screen, touch Messaging.
2. Touch a message.
3. Touch and hold a message in the thread.
4. Touch Forward.
5. Enter a phone number or a contact name, and touch a recipient.
6. Touch Message to edit the message, if necessary.
7. Touch Send.

Deleting a Message
1. From the Home screen, touch Messaging.
2. Touch a message.
3. Touch and hold a message in the thread.
4. Touch Delete Message.

Deleting a Thread
1. From the Home screen, touch Messaging.
2. Touch a message.
3. Touch ☐ > Delete Thread.
Setting Up SMS Cell Broadcast
If SMS Cell Broadcast is supported by your service provider and region, you can receive text messages that are broadcast to multiple subscribers in the area.

1. From the Home screen, touch \(\equiv\) > Settings > Messaging.
2. Select the Cell Broadcast Service check box.
3. Touch Select Language, select the language you want to receive messages in, and touch Save.
4. Touch Manage Channels.
5. Select the Receive Channel List check box.
6. Select the channels you want to receive.

TIP: You can also add a channel that does not appear in the list.

Adding a New Channel
1. From the Home screen, touch \(\equiv\) > Settings > Messaging > Manage Channels.
2. Touch +.
3. Touch the Channel Number field, and enter the channel number.
4. Touch the Description field, and enter a description for the channel.
5. Touch the Note field, and enter a note about the channel.
6. Touch Save.

About Cell Broadcast Messages
When you receive a cell broadcast message, it is displayed in the notification bar (page 9).
Using E-mail

Adding an E-mail Account
Contact your e-mail account provider for your e-mail configuration information.

**NOTE:** To add a Gmail account, see page 90. Access Gmail using the Gmail application.

1. From the application tray, touch Email > Other (POP3/IMAP4).
2. Enter the e-mail address and the e-mail password.
3. Touch Save.
4. If necessary, enter account-configuration information from your service provider.
5. Touch Next > Save.

Adding an Exchange ActiveSync® E-mail Account
Contact your network administrator to obtain the necessary information for your network.

For more information about Exchange ActiveSync, see page 90.

1. From the application tray, touch Email > Exchange ActiveSync.
2. Enter your e-mail address and your e-mail password.
3. Touch Next.
4. If necessary, enter or correct the information.
5. Touch Next.
   The device verifies the account settings.
Sending and Receiving Messages

Sending an E-mail Message
1. From the application tray, touch Email > Compose.
2. Touch the fields on the screen to enter recipients, to enter a subject, and to add attachments.
3. Touch Message.
4. Enter the text message.
5. Touch ☐ for more options (optional).
6. Touch Send.

Viewing an E-mail Message
1. From the application tray, touch Email.
2. Touch ☞ to check for new e-mail messages, if necessary.
3. Touch an e-mail message.
4. Select an option:
   • Touch ☑️ to view the location information, if available.

Deleting E-mail Messages
1. From the application tray, touch Email > ❌.
2. Touch the messages to delete.
3. Touch Delete.

Searching for an E-mail Message
Note: This only searches the sender name and headers of the messages, not the message text.
1. From the application tray, touch Email.
   Tip: To search a different folder, touch ☐️ > View Folders, and touch a folder, if necessary.
2. Touch ☐️ > Search Current Folder.
3. Enter the search text, and touch Done.
Changing E-mail Folders
1. From the application tray, touch Email.
2. Touch  > View Folders.
3. Touch a folder.

Setting an E-mail Signature
You can set an e-mail signature for each e-mail account you have added.

1. From the application tray, touch Email  > Manage Accounts.
2. Touch an account.
3. Verify the Use Signature check box is selected.
4. Touch Signature.
5. Enter a signature.
6. Touch Save.

Changing the E-mail Account Password
1. From the Home screen, touch  > Settings > Email.
2. Select an account.
3. Touch Account Info > Password.
4. Enter the new passwords.
5. Touch Save.

Adding Another E-mail Account
1. From the application tray, touch Email  > Manage Accounts > Add New Account.
2. Select the account type, and follow the correct instructions on page 57.

Changing E-mail Accounts
1. From the application tray, touch Email.
2. Touch  and .
Setting the Default E-mail Account
1. From the Home screen, touch Settings > Email > Set Default Account.
2. Touch an account.
3. Touch Done.

Editing your Exchange ActiveSync Account
1. From the application tray, touch Email > Manage Accounts > Exchange ActiveSync > Account Info.
2. Edit the fields as necessary.
3. Touch .
4. Select an option:
   • Touch Yes to verify your account.
   • Touch No to save the changes without verifying.
Using Ciao!™

Ciao! periodically sends your location to our partner networks and downloads the most-recent location of your friends. This application only submits your location when you tell it to, unless you enable automatic updates.

This service is not available in all areas. A data connection is required for this feature. Your regular data usage charges apply.

⚠️ CAUTION
Use caution when sharing your location information with others.

Registering Your Device and Joining Ciao!

1. From the application tray, touch Ciao!.
2. Read and accept the on-screen messages.
3. Follow the steps to register your device.
   After registering, you will receive an SMS message for verification.
4. Open the SMS message received from myGarmin.
5. Touch the link to complete the verification process.
6. Touch OK.
   The Ciao! registration page opens.
7. Select the check box to verify that you are of legal age to use Ciao!.
8. Touch Next.
9. Enter a display name, and touch Done.
10. Touch a type of location update: Manual or Automatic.
11. Touch the link to read the terms of service for the displayed network or networks.
12. Touch Accept.
Using Ciao!

Your location is updated and becomes available to your friends.

Changing Your Display Name
1. From the application tray, touch Ciao! > My Details > Change Name.
2. Enter a new name.
3. Touch Done.

Inviting a Friend
1. From the application tray, touch Ciao! > Invite.
2. Select an option to find a friend.
3. Touch Done.

Your invited friend must accept the invitation before you can receive location updates from that friend.

Accepting or Declining an Invitation
1. From the application tray, touch Ciao!.
2. Touch the friend that sent you the invitation.
3. Touch Accept or Decline.

Sending a Location Update
From the application tray, touch Ciao! > My Details > Send Update.

Automatically Sending Location Updates

⚠️ CAUTION

Use caution when sharing your location information with others.

By default, your location is only sent when you manually send it.
1. From the application tray, touch Ciao! > My Details.

2. Touch ☰ > Change Location Updates > Automatic > Done.

**Updating Your Status**
1. From the application tray, touch Ciao! > My Details > Change Status.
2. Enter a new status message.
3. Touch Done.

**Viewing Friends**
Your list of friends displays the status of, the distance to, and the direction to your friends.
1. From the application tray, touch Ciao!.
2. Touch a friend.
   The location for the friend appears on a map.

**Viewing All Friends on the Map**
From the application tray, touch Ciao! > View Map.

**Adding a Friend to Contacts**
1. From the application tray, touch Ciao!.
2. Touch a friend.
3. Touch ☰ > Add to Contacts.

**Sending a Message to a Friend**
1. From the application tray, touch Ciao!.
2. Touch a friend.
3. Touch Message.

**Starting a Route to a Friend’s Location**
1. From the application tray, touch Ciao!.
2. Touch a friend.
3. Touch Go!

**Removing an Invitation**
1. From the application tray, touch Ciao!.
2. Touch an invited friend.
3. Touch Uninvite.

**Removing a Friend**
1. From the application tray, touch Ciao!.
2. Touch a friend.
3. Touch the information balloon.
4. Touch ☑️ > Remove Friend > Yes.

**Hiding and Revealing Your Location**
- From the application tray, touch Ciao! > ☑️ > Hide.  
  Your current location is hidden from your friends.
- To stop hiding, touch Ciao! > ☑️ > Stop Hiding > Stop Hiding.

**Viewing Ciao! Networks**
1. From the application tray, touch Ciao!.
2. Touch ☑️ > Privacy > ☑️ > Networks.

**Disabling Ciao!**
1. From the application tray, touch Ciao!.
2. Touch ☑️ > Privacy > ☑️ > Disable Ciao! > OK.

All the Ciao! information stored on your device is removed. You no longer send any position updates.

To enable Ciao!, you must join Ciao! again.
Browsing the Web

1. From the application tray, touch Browser.
2. Touch the URL bar.
3. Enter a search term or a URL, and touch Go.

Using the Browser

- Touch ⏪ to refresh the current Web page.
- Touch ✗ to stop loading the Web page.
- Touch and drag the screen to scroll the Web page.
- Touch two points near the center of the page, and drag your fingers apart to zoom in.
- Touch two points near opposite edges of the page, and drag your fingers toward the center of the page to zoom out.
- Touch links, text-entry boxes, and other interactive items to activate them.
- Touch and hold interactive items to view a menu of additional options.
- Touch ⇪ to return to the previous Web page in your history.
- Touch ⇫ to go to the next Web page in your history.
- Touch ★ to add this Web page to your favorites, if it is not already added.
- Touch ★ to remove this Web page from your favorites, if it is already added.
- Touch 📚 to view a list of recently viewed Web sites ( ), favorite Web sites ( ), and most-viewed Web sites ( ).
- Touch ☛ to view other active browser windows.
Browsing the Web

• Touch ✉️ to use the following options:
  ◦ Touch **Go To URL** to enter a URL.
  ◦ Touch **Refresh** to refresh the Web page.
  ◦ Touch **Share** to send the URL in a text message or an e-mail.
  ◦ Touch **Find on Page** to find text in the current Web page.
  ◦ Touch **Select Text** to copy text from the current Web page to the system clipboard. Touch and drag across the text to copy. When you lift your finger, the selected text is copied to the clipboard.
  ◦ Touch **View Downloads** to view your Download History.

**Viewing Multiple Browser Windows**

You can view another Web page without closing the current page by launching another browser window.

1. From the application tray, touch **Browser > 🌐 > New Page**.
2. Select an option:
   • Touch a Web site.
   • Touch the URL bar to enter a web address, which opens the new Web page.
3. Touch ✉️.
4. Touch an active browser window.
Saving a Web Page to Favorites
1. Open the Web page to save.
2. Touch ★.
   When you view one of your favorite Web pages, ★ appears gold.

Removing a Web Site from Favorites
1. Open the Web page to remove.
2. Touch ★.

Opening a Favorite Web Page
1. From the application tray, touch Browser > ☐ > ☑.
2. Touch a Web page to view in the browser.

Viewing Your History
1. From the application tray, touch Browser > ☐ > ☑.
2. Touch a Web page to view in the browser.

Clearing Your Web Page History
From the Home screen, touch ☐ > Settings > Browser > Clear History > Yes.
Sharing a URL
1. From the application tray, touch **Browser >**.
2. Touch a category.
3. Touch and hold a Web page.
4. Touch **Share**.
5. Select an option to send the URL.

Opening a Web Site in a New Window
1. From the application tray, touch **Browser >**.
2. Touch a category.
3. Touch and hold a Web page.
4. Touch **Open in New Window**.

Deleting a Web Site from a List
1. From the application tray, touch **Browser >**.
2. Touch a category.
3. Touch **x**.
4. Touch **x** next to the Web site to remove the site from the list.
5. Touch again to delete.
6. Touch **Done**.

Setting Your Browser Home Page
1. From the Home screen, touch **Settings > Browser > Set Home Page**.
2. Enter a URL.
3. Touch **OK**.
**Downloading Files**

1. From the application tray, touch **Browser**.

2. Open a Web page that contains a download link.

3. Touch the download link.

   The download history page appears, and a progress bar indicates the status of the download.

   **TIP:** Touch and hold the progress bar to cancel or pause the download.

4. Touch .Done, and select an option, if necessary:

   - Touch **Clear All** to clear the download history. This option does not remove downloaded files from the device.
   - Touch **Pause All** to pause all in-progress downloads.

5. When the progress bar is full, touch the file name to view the downloaded file.

**Viewing Downloads**

1. From the application tray, touch **Browser > Downloads > View Downloads**.

2. Touch the file.
Playing Music

Music Player File Types

The music player supports the following file types:

- MP3
- MPEG4
- WMA
- AAC/AAC+/eAAC+
- WAV
- MIDI
- OGG

All supported music files on your device are displayed in the music player.

Music Player Information

Supply of this product does not convey a license nor imply any right to distribute content created with this product in revenue-generating broadcast systems (terrestrial, satellite, cable and/or other distribution channels), streaming applications (via internet, intranets and/or other networks), other content distribution systems (pay-audio or audio-on-demand applications and the like) or on physical media (compact discs, digital versatile discs, semiconductor chips, hard drives, memory cards and the like). An independent license for such use is required. For details, please visit http://mp3licensing.com.
Playing a Song
You must transfer music files to your device before playing songs or creating playlists (page 92).

1. From the application tray, touch Music.
2. Select an option:
   • Touch All Songs.
   • Touch a category and subcategory, if necessary.
   All the songs in the selected category are added to the current playlist.
3. Touch a song.
   The music player plays the selected song and the following songs.

Changing the Music Player View
While playing a song, touch the following icons to change the music player view:

- Touch to view the current playlist.
- Touch to view the current track, cover art, and a progress slider.
- Touch > Browse Music Library to browse the music library without stopping the music.

About Playlists
A playlist is a list of songs that can be saved. The current playlist appears on the playlist screen of the music player. You can also create and save playlists for future playback.
Creating a Playlist
1. From the application tray, touch **Music > Playlists > +**.
2. Enter a new name, and touch **Save**.
3. Touch the new playlist.
4. Touch **+**.
5. Touch a category and subcategories, if necessary.
6. Select the check box next to each song to add to the playlist.
7. Touch **Add to Playlist**.
8. Repeat steps 4–7 to add additional songs.
9. Touch **Done > Save**.
10. Touch and drag the song to a new position in the list to change the order of the playlist (optional).
11. Touch **Save**.

Playing a Playlist
1. From the application tray, touch **Music > Playlists**.
2. Touch a playlist.
3. Touch a song to begin playing the playlist.

Editing a Playlist
1. From the application tray, touch **Music > Playlists**.
2. Touch a playlist.
3. Touch **≡ > Edit Playlist**.
4. Select an option to edit the playlist:
   - Touch **+** to add songs to the playlist.
   - Touch **x** to remove a song from the playlist.
   - Touch and hold **≡**, and drag the song to a new position in the playlist.
5. Touch **Save**.
Searching the Music Player
1. From the application tray, touch Music.
2. Touch 🔍.
3. Enter all or part of the song title, album, or artist.
4. Touch Done.

Saving a Song as a Ringtone
1. From the music player playlist view, touch and hold the song.
2. Touch Add to ringtone list.

Streaming Online Music
You can stream supported music files without saving them on the device.

1. From the application tray, touch Browser.
2. Select an option:
   • Enter a URL.
   • Navigate to a page with a link to a supported music file.
3. Touch the music file link.
   The music player launches and plays the song. The URL for the song appears.
4. If possible, touch ☐ > Save to save the song.
Taking and Viewing Pictures and Videos

NOTE: If it is not already removed, remove the plastic film from the camera lens before using the camera.

Taking a Picture
1. Press the Camera key.
2. Use the screen as a viewfinder, and point the camera lens at the subject to photograph.
3. Press the Camera key halfway down, and hold the camera still. A flashing gray box appears on the screen. The device focuses on the object inside of the box. When the camera is in focus, the box turns green and stops flashing.
4. Press the Camera key fully down to take the picture.

When you hear the camera click, the photo is taken and displayed for review for 3 seconds.

5. Select an option:
   • Touch 📷 for more options, such as to set the image as the wallpaper or as a contact icon.
   • Touch ✉ to share the image.
   • Touch ✖️ to erase the image.
   • Touch 📷 to take a new picture.

TIP: You can also touch 📷 to take a picture.

Taking a Picture with GPS Information
If you are receiving GPS signals, the device can assign a GPS location to the photo.
1. Press the Camera key.
2. Touch ✖️.
Taking and Viewing Pictures and Videos

**TIP:** Before taking pictures with GPS information, you may need to wait a few moments for the device to acquire satellite signals.

3. Use the screen as a viewfinder, and point the camera lens at the subject to photograph.

4. Press and hold the **Camera** key, and hold the camera still.

5. Release the **Camera** key to take the picture.
   When you hear the camera click, the photo is saved.

### Recording a Video

1. Press the **Camera** key.
2. Touch 📹 to select video.
3. Use the screen as a viewfinder, and point the camera lens at the subject to be recorded.
4. Touch 📺 to begin recording.
5. Touch ☐ to stop recording.

The video is saved automatically.

**TIP:** Touch 📼 to find and view the video.

### Changing the Camera and Video Settings

1. From the application tray, touch **Camera > 📼 > Camera Settings**.
2. Select an option:
   - Touch **Color Effect** to select a color effect to apply to photos you take.
   - Touch **Lighting Adjustment** to select a lighting condition, or select **Automatic**.
   - Touch **Picture Resolution** to select the resolution at which to capture photos. Higher settings use more storage memory to provide better-quality photos.
   - Touch **Shutter Sound** to turn the shutter sound on or off.
Taking and Viewing Pictures and Videos

- Touch **Auto Review** to turn the review page on or off. The review page displays the photo briefly after you take it.

- Touch **Video Quality** to select the resolution at which to record video.

  **NOTE:** **Video Quality** can only be adjusted when MP4 is selected as the **Video Format**.

- Touch **Video Format** to select the video format to use when saving videos.

  **NOTE:** Only 3GPP videos can be sent as a multimedia message.

**Viewing Pictures**
1. From the application tray, touch **Gallery**.
2. Touch a picture.
3. Touch the arrows to view additional photos.

**Viewing a Video**
1. From the application tray, touch **Gallery**.
2. Touch a video.

  Videos are indicated by 🎥.
3. Touch 🎥.
4. Touch the screen to view the playback controls.

**Viewing a Slideshow**
1. From the application tray, touch **Gallery**.
2. Touch > **View Slideshow**.

**Sharing Pictures and Videos**
1. From the application tray, touch **Gallery**.
2. Touch the picture or video.
3. Touch 📬.
4. Select an option to share the image.
Setting Your Wallpaper
You can select and prepare a photo to serve as wallpaper.

1. From the application tray, touch Gallery.
2. Touch a picture.
3. Touch > Set As > Wallpaper.
4. Touch and drag the edges of the rectangle to crop the photo.
5. Touch Save.

Editing Pictures and Videos
1. From the application tray, touch Gallery.
2. Touch a picture or video.
3. Touch Edit.
4. Select an option:
   - Touch Rotate to turn the photo left or right.
   - Touch Crop, touch and drag the edges of the rectangle to crop the photo, and touch Save. A new file with the crop is created.
   - Touch More Info > Rename Picture or Rename Video to rename files.

Adding a Picture to a Contact
1. From the application tray, touch Gallery.
2. Touch a picture.
3. Touch > Set As > Contact Photo.
4. Touch a contact.
5. Touch and drag the edges of the square to crop the photo.
6. Touch Save.
Starting a Route to a Photograph or Video

You can route to photographs that have GPS location information (page 74).

1. From the application tray, touch Gallery.
2. Touch a picture.
3. Touch ➤ > Go!.

Changing the Gallery Settings

1. From the application tray, touch Gallery > ☰ > Gallery Settings.
2. Select an option:
   • Touch Grouping to select the criteria by which to group your pictures.
   • Touch Display Size to select the size of the picture previews.
   • Touch Sort Order to select the order in which to sort your pictures.
   • Touch Slideshow Interval to select the amount of time that each picture should be displayed in the slideshow.
   • Touch Slideshow Transition to select the transition effect to use when changing pictures in the slideshow.
   • Select the Repeat Slideshow check box to play the slideshow multiple times.
   • Select the Shuffle Slides check box to display the slides in random order.

Organizing Your Life

You can synchronize your phone with your computer, Google account, and Exchange account to keep your inbox, contacts, and calendar up to date in all locations (page 90).

Using the Calendar

Viewing an Appointment
1. From the application tray, touch Calendar.
2. Select an option, if necessary:
   - Touch to view the current day. The number in the circle is the current day of the month.
   - Touch to view an agenda of upcoming appointments.
   - Touch to view appointments for today.
3. Touch an appointment to view details.

Creating an Appointment
1. From the application tray, touch Calendar.
2. Touch .
3. Touch Subject, enter a subject, and touch Done.
4. Touch Location, and select an option to enter a location:
   - Enter the full address or location name, and touch Done.
   - Touch Add Location, touch the location on the map, and touch Select this Location > Done.
   - Touch Add Location, touch, find the location, and touch Select this Location > Done.
5. Select the duration of the appointment:
   • Select start and end times.
   • Select the All Day check box to create an all-day appointment.

6. Touch Reminder, select a reminder time, and touch Save, if necessary.

7. Touch Repeat, select how often the appointment recurs, and touch Save, if necessary.

8. Touch Calendar to select a calendar, if you have more than one calendar on the device.

9. Touch Note to make notes about the meeting (optional).

10. Touch Invites to invite people to the appointment, if necessary.
    You can invite people to the meeting if you are using a Google or Exchange ActiveSync account.

11. Touch Save.

**Starting a Route to an Appointment**
If the appointment has location information, you can start a route to the location.

1. From the application tray, touch Calendar.

2. Touch the appointment.

3. Touch 📍 > Go!.

**Viewing a Document**
You can view the following document types using the document viewer: Microsoft® Word, Excel®, PowerPoint®, Adobe® PDF, HTML, and plain-text files. For more information on transferring files, see page 92.

1. From the application tray, touch Document Viewer.
**TIP:** To display files of a certain type, touch 📖 > **Show By File Type**, and touch a file type.

2. Touch the document.

**NOTE:** You can also open a document attached to an e-mail or linked on a Web page.

3. Perform any of the following actions:
   - Touch 🔽 or ▶ to move backward or forward one page.
   - Touch **Page**, and enter a page number.
   - Touch **Page**, and enter a page number.
   - Touch two points near the center of the page, and drag your fingers apart to zoom in.
   - Touch two points near opposite edges of the page, and drag your fingers toward the center of the page to zoom out.

- Touch 📖 > **Search** to search the document.
- Touch 📖 > **Rotate** to rotate the document 90° clockwise.
- Touch 📖 > **Share** to send the document.

**Searching a Document**

1. Open the document in the Document Viewer (page 81).
2. Touch 📖 > **Search**.
3. Enter a search term.
4. Touch 🔽.
5. Touch 🔽 or ▶ to find the next occurrence or the previous occurrence of the search term.
6. Touch 📖 to close the search bar.
Checking the Weather Forecast
This service is not available in all areas. A data connection is required for this feature. Your regular data usage charges apply.

**TIP:** To change the units of measure, see page 109.

1. From the application tray, touch **Weather**.

   The current local weather conditions and a six-day forecast are displayed.

2. Touch a day to view a detailed forecast for that day.

Viewing the Forecast in Other Cities
1. From the application tray, touch **Weather > Edit Favorite Cities > Add City**.

2. Enter the city name.

3. Touch **Done**.

4. Touch the city.

5. Touch **Done**.

6. Touch or to view the forecast in your favorite cities.

Using the Clock
For information on manually changing the time or the time zone, see page 108.

Adding Cities to the Time List
1. From the application tray, touch **Clock > +**.

2. Enter all or part of a city name.

3. Touch **Done**.

4. Touch the city.
**Organizing Your Life**

**Setting an Alarm**
1. From the application tray, touch **Clock > Add New Alarm**.
2. Touch **Alarm Message**, enter a message for the alarm, and touch **OK**.
3. Touch **Start**, select an alarm time, and touch **Done**.
4. If necessary, touch **Repeat**, select how often the alarm should repeat, and touch **OK**.
5. Select the **Enabled** check box.
6. Touch **Ringer**, touch a ringer, and touch **Done** (optional).
7. Touch **Save**.

**Managing Alarms**
- Select or clear the check box next to an alarm to enable or disable the alarm.
- To delete an alarm, touch an alarm, and touch **Delete Alarm**.
- When the alarm sounds, touch **Snooze** to hear the alarm again in 10 minutes, or touch **Dismiss**.

**Using the Stop Watch**
1. From the application tray, touch **Clock**.
2. Touch **Start** to start the timer.
3. Touch **Lap** to record the lap time and the split time (optional).
4. Touch **Stop** to stop the timer.
5. Touch the **Lap** and **Split** times to view details (optional).
6. Touch **Reset** to reset the timer (optional).
**Viewing the World Map**
1. From the application tray, touch **Clock > .**
   The globe displays areas of daylight and night across the world.
2. Perform any of the following actions:
   - Touch and drag the globe to change the speed or the direction of rotation.
   - Touch the globe to stop the rotation.
     - When the globe is stopped, touch again to view a flat map view.
     - Touch the map to switch back to the globe view.

**Using the Converter**
**Converting Units**
1. From the application tray, touch **Converter.**
2. Touch the button next to **Convert.**
3. Touch the type of items to be converted.
4. Touch **Done.**
5. Touch a unit of measurement.
6. Touch the unit type.
7. Touch **Done.**
8. Touch a number.
9. Enter the number of units to be converted.
10. Touch **Done.**
**TIP:** To clear the number of units, touch **Clear.**
Converting Currency
1. From the application tray, touch Converter.
2. Touch the button next to Convert.
3. Touch Currency > Done.
4. Touch a currency button.
   TIP: Touch and drag the tab to quickly scroll through the currencies.
5. Touch a currency.
6. Touch Done.
7. Touch the amount below the currency to convert.
8. Enter the amount.
9. Touch Done.

Updating the Currency Rates
A data connection is required for this feature.
1. From the application tray, touch Converter.
2. Touch the button next to Convert.
3. Touch Currency > Done > Update.

Setting Conversion Rates Manually
1. From the application tray, touch Converter.
2. Touch the button next to Convert.
3. Touch Currency > Done.
4. Touch a currency button.
5. Touch the currency for which you want to set the conversion rate, and touch Done.
6. Repeat step 5 to set the other currency, if necessary.

7. Touch ☐ > Custom.

8. Touch a conversion tab to change how the currencies are converted.

9. Touch a conversion rate.

10. Enter a new conversion rate, and touch Done.

**Checking Flight Status**

A data connection is required for this feature. Your regular data usage charges apply.

1. From the application tray, touch Flight Status.

2. Perform a search:
   - Touch Current Location to search for flights in airports near your current location.
   - Touch Another City to search for flights in airports near the city you select.

   A list of airports appears. Major airports are listed first, and all other airports are sorted by distance.

3. Touch an airport.

   **TIP**: Touch 🗺 to view the airport on the map.

4. Select an option.

5. Touch a flight.
Finding Movie Times
This service is not available in all areas. A data connection is required for this feature. Your regular data usage charges apply.

Finding a Movie by the Title
1. From the application tray, touch Movie Times > Movies.
2. Touch the arrows or the date to select a different date, if necessary.
3. Touch a movie.
4. Touch Theatres.
5. Touch a theatre.
6. Select an option.

Finding a Movie by Theatre
1. From the application tray, touch Movie Times > Theatres.
2. Touch a theatre.
3. Touch the arrows or the date to select a different date, if necessary.
4. Touch a movie.
5. Select an option.

Starting a Route to a Movie Theatre
After you select a movie and theatre, you can create a route to the theatre.

Setting an Appointment for a Movie
After you select a movie and theatre, you can set an appointment for the movie time.

1. Touch ☐ > Remind Me.
2. Touch a movie time.
Connecting with Other Devices

Synchronizing Your Device with Your Computer

Synchronize your device with your computer to transfer your contacts and calendar events to your device.

Downloading and Installing Garmin-Asus PC Sync

Note: Garmin-Asus PC Sync software is not compatible with Mac® computers.

1. Go to www.garminasus.com
   pcsync.
2. Follow the on-screen instructions to download and install Garmin-Asus PC Sync software.

Synchronizing With Your Computer

1. Verify that you have downloaded and installed Garmin-Asus PC Sync software on your computer.
2. Connect the mini-USB cable to the connector on the bottom of the device (not the cradle).
3. Connect the cable to your computer. The USB Connected page opens on the device.
   
   Note: If the USB Connected page does not open, open the Notification bar, and touch USB Connected.
4. Touch Sync.

Your Microsoft Outlook® contacts, calendar events, and tasks are synchronized with your device contact list and calendar.
Synchronizing Your Device with an Exchange Server

Synchronize your contacts, calendar, and e-mail with an Exchange ActiveSync account. You must have a data connection to use this feature. Contact your network administrator to obtain the necessary information for your network.

See page 57 for more information about setting up an Exchange ActiveSync account.

You can select the types of data (e-mail, contacts, and calendar) to synchronize and how the device synchronizes data (page 106).

Synchronizing with a Google™ Account

You can synchronize your Google account data with the calendar, contacts, and Google Mobile Services.

1. From the Home screen, touch ☰ > Settings > Accounts and Sync > Add New Account > Next.

2. Select an option:
   • Touch Sign In to sign into an existing Google account. Enter your user name and password, and touch Sign In.
   • Touch Create to create a new Google account. Follow the on-screen instructions.

3. Select the types of data you want to synchronize.

Data in your Google account synchronizes automatically with the applications on your device.

Removing a Google Account

From the Home screen, touch ☰ > Settings > Accounts and Sync > Google > Remove Account.
Using Bluetooth Technology

Use Bluetooth wireless technology to connect with other devices wirelessly.

Turning On Bluetooth

1. From the Home screen, touch > Settings > Wireless Manager > Bluetooth.
2. Select the Bluetooth check box.

Pairing with a Device

You can wirelessly connect to a device with Bluetooth technology.

1. Place the device to pair with in discoverable/pairing mode.
2. From the Home screen, touch > Settings > Wireless Manager > Bluetooth.
3. Select the Bluetooth check box.
4. Select the Discoverable check box.
5. Touch Scan for Devices.

NOTE: You might have to wait a moment for the names of the devices to appear.
6. Select the device to pair with in the list.
7. Enter the passkey of the device.
8. Touch OK.

Connecting to a Paired Device

Before you can connect to another device, you must pair it with your device.

1. From the Home screen, touch > Settings > Wireless Manager > Bluetooth.
2. Touch a paired device.
3. Touch Connect.

Changing Your Device Name

You can change the name that identifies your device on other Bluetooth devices.
Connecting with Other Devices

1. From the Home screen, touch > Settings > Wireless Manager > Bluetooth.
2. Touch Device name.
3. Enter a name.
4. Touch Save.

Disconnecting a Device
1. From the Home screen, touch > Settings > Wireless Manager > Bluetooth.
2. Touch the device.
3. Touch Disconnect.
The device is disconnected, but it remains paired with your device.

Removing a Paired Device
1. From the Home screen, touch > Settings > Wireless Manager > Bluetooth.
2. Select an option:
   • Touch a device, and touch Unpair.
   • Touch > Clear Device List to remove all paired devices.

Removing all Paired Devices
From the Home screen, touch > Settings > Wireless Manager > Bluetooth > > Clear Device List > Yes.

Transferring Files
You can transfer files, such as MP3s and JPEGs, to your device.

1. Insert the microSD card (page 2).
2. Connect the mini-USB cable to the connector on the bottom of the device (not the cradle).
3. Connect the cable to your computer.
The USB Connected page opens.
4. Touch File Transfer.
   NOTE: If the USB Connected page does not open, open the Notification bar, and touch USB Connected.
Two additional drives (volumes) appear in the list of drives on your computer. One is the internal memory of the device. The other is the memory card.

5. Copy and paste the files to be transferred into the appropriate folders in the new drives.

About File Transfer Mode

**NOTICE**

If you are not sure about the purpose of a file, do not delete the file. Your device memory contains important system files that should not be deleted. Be especially cautious of files located in folders entitled “Garmin.”

File transfer mode is also referred to as USB mass storage mode. Use file transfer mode to add files to the device. The computer does not need Garmin-Asus PC Sync installed to use file transfer mode.

About Picture and Video File Types

Your device supports the following file types:

- Picture: JPEG, PNG, BMP, GIF
- Video: 3GP, WMV, MP4

About Wi-Fi

Connect to the Internet using a Wi-Fi connection. You must be in a Wi-Fi coverage area (Wi-Fi hotspot) to use Wi-Fi.

**Connecting to a Wi-Fi Network**

1. From the Home screen, touch > Settings > Wireless Manager > Wi-Fi.
2. Select the **Wi-Fi** check box.
   The device searches for Wi-Fi networks.
3. If necessary, touch **Scan for Wi-Fi Networks**.
Connecting with Other Devices

4. Touch a network.
5. Enter the network encryption key, if necessary.
6. Touch **Connect**.
7. If necessary, enter your user name and password.

**Adding a Network**
You can add non-broadcasting networks or other networks that your device does not automatically detect.

1. From the Home screen, touch **Settings** > **Wireless Manager** > **Wi-Fi**.
2. Select the **Wi-Fi** check box.
3. Touch **+** next to **Add Wi-Fi Network**.
4. Touch the field below **Network SSID**.
5. Enter the network SSID, and touch **Done**.
6. Touch the field below **Security**.
7. Touch a security type.
8. Enter a password, and touch **Done**.
9. Touch **Save**.

**Removing a Remembered Network**
After you have connected to a Wi-Fi network, the device remembers the network for future use. Remembered networks appear in the network list even when they are out of range.

1. From the Home screen, touch **Settings** > **Wireless Manager** > **Wi-Fi**.
2. Touch the network.
3. Touch **Forget**.
Customizing Your Device

Wireless Manager
From the Home screen, touch 📱 > Settings > Wireless Manager.

- **Airplane Mode**—see page 24.
- **Wi-Fi**—see page 93.
- **Data**—see below.
  
  **NOTE:** Data charges apply when the data connection is **On**.
- **Bluetooth**—see page 91.
- **VPN**—allows you to configure and connect to a Virtual Private Network (VPN). Contact your network administrator for the necessary information.

Data Connection Settings

**NOTICE**
There may be additional charges from your service provider to use the data connection while roaming.

From the Home screen, touch 📱 > Settings > Wireless Manager > Data.

- **Data Connection**—turns on the data connection.
  
  **NOTE:** Data charges apply when the data connection is **On**.
- **Data Roaming**—turns on the data connection when roaming.

  **NOTE:** There may be additional charges from your service provider to use the data connection while roaming.
- **Internet Sharing**—shares the data connection with the computer when connected with a USB cable.
Customizing Your Device

• **Network Preference**—allows you to select your preferred type of network.

• **Access Point Names**—displays connected data service access points.

### Audio Settings

From the Home screen, touch 📞 > Settings > Audio and Display.

• **Volume Levels**—allows you to adjust the volume levels of each output.

• **Ringtones**—allows you to select a ringtone for phone calls.

• **Notifications**—sets the ringtone for notifications, such as text messages.

• **Ring Style**—sets the ring style to Ring Only, Vibrate Only, Ring + Vibrate, or Silent.

• **Audible Touch Tones**—plays a tone when you dial.

• **Audible Selection**—plays a tone when you touch the screen.

• **Haptic Feedback**—sets the device to vibrate when you press certain soft keys.

• **SD Card Notifications**—sets the device to vibrate when you eject or remove the memory card.

### Display Settings

From the Home screen, touch 📞 > Settings > Audio and Display.

• **Brightness**—changes the brightness of the screen. Decreasing the brightness can save battery power. **Auto Brightness** sets the brightness based on the ambient lighting.

• **Color Mode**—sets a light background (Daytime), a dark background (Nighttime), or automatically switches between the two based on the sunrise time...
and sunset time for your current location (Auto).

- **Screen Timeout**—sets how the screen automatically shuts off if the device is inactive for the selected length of time.

- **Orientation**—allows the phone to rotate the screen display as you rotate the device.

- **Animation**—enables animations when you open or close windows.

- **Screenshot**—allows you to take a picture of the device screen.

**Taking a Screenshot**

1. From the Home screen, touch > Settings > Audio and Display > Screenshot.
2. Press the Camera key to take a picture of a screen.

Screenshots are saved in the “Screenshot” folder on the device.

**Phone Settings**

From the Home screen, touch > Settings > Phone.

- **Call Waiting**—see page 20.
- **Call Forwarding**—see page 23.
- **Call Barring**—see page 23.
- **Caller ID**—sets a preference for sending caller ID information when you make phone calls.
- **Voice Mail Number**—sets the number to access voice mail, usually the same as your phone number.
- **TTY**—enables TTY (teletypewriter) mode. This requires the use of a TTY adapter (part number 010-11371-04), available at www.garminasus.com/a50/tty_adapter.
- **Hearing Aid Mode**—optimizes the phone speaker for use with hearing aids.
Customizing Your Device

- **Fixed Dialing Numbers**—enables you to set up your device so that it can only dial certain phone numbers.
- **Network Operators**—searches for local networks.

### Enabling and Adding Fixed Dialing Numbers
Before you can change the Fixed Dialing Numbers (FDN) settings, you must acquire the FDN PIN for your SIM card from your service provider.

1. From the Home screen, touch \(\text{Settings} > \text{Phone} > \text{Fixed Dialing Numbers} > \text{Enable FDN}\).
2. Enter the FDN PIN, and touch \text{Save}.
3. Touch \text{Manage FDN List} > \(\text{Add contact}\).
4. Enter a name and number, and touch \text{Save}.
5. Enter the FDN PIN to add the contact to the FDN phone number list.

**NOTE:** You must enter the FDN PIN to disable FDN.

### Home Screen
- **Home Screen Style**—changes the Home screen to the Classic Home or the Breeze Home, which uses panes.
- **Change Wallpaper**—see page 10.

### Navigation Settings
- **Voice**—sets the language used for all voice prompts and messages.
- **Traffic Service**—enables the traffic service.
- **Safe Mode**—prevents you from entering data when your vehicle is in motion.
- **Background Data**—enables
Garmin Connected Services to access data in the background.

**Changing the Navigation Voice**
1. From the Home screen, touch > Settings > Navigation > Voice.
2. Select a language.
3. Touch OK.

**Turning Off the Traffic Service**
1. From the Home screen, touch > Settings > Navigation.
2. Touch the Traffic Service check box to clear it and turn off the traffic service.

**Automobile and Pedestrian Navigation Settings**
You can adjust the navigation settings for Automobile (Driving) and Pedestrian (Walking) usage modes.

From the Home screen, touch > Settings > Navigation.

- **Route Preference**—sets the preference for calculating routes.
- **Map Detail**—sets the level of detail on the map. More detail may result in slower map drawing.
- **Map View**—sets the perspective of the Map page.
  - Track Up displays the map in two dimensions (2-D) with your direction of travel at the top.
  - North Up displays the map in 2-D with North at the top.
  - 3-D displays the map in three dimensions, with Track Up orientation (default).
- **Avoidances**—types of roads and maneuvers the device should attempt to avoid when creating routes, available for Automobile (Driving) mode only.
- **Notification Type**—sets the method for which you are notified of maneuvers in the route, available for Pedestrian (Walking) mode
Customizing Your Device

only.

- **Vehicle** or **Avatar**—changes the icon to represent your position on the map.

- **Auto Dim Brightness**—automatically dims the backlight while navigating.

- **Trip Log**—displays the path of your travels on the map.

### Changing Public Transportation Navigation Settings

Public Transportation settings are available when cityXplorer maps are loaded.

1. From the Home screen, touch > **Settings** > **Navigation** > **Public Transportation**.

2. Select the types of public transportation you would like to take.

### Disabling Proximity Points

If you have loaded proximity points, such as safety cameras and custom POIs, you can disable them without removing them from the device.

1. From the Home screen, touch > **Settings** > **Navigation** > **Proximity Points**.

2. Clear the check box for the type of proximity points you want to disable.

### Downloading Safety Cameras

**⚠️ CAUTION**

Garmin and ASUS are not responsible for the accuracy of, or the consequences of using, a custom point of interest (POI) or a safety camera database.

This service may be available as a paid subscription. This service is not available in all areas. A data connection is required for this feature.
1. From the Home screen, touch 

   > Settings > Navigation > 

   Download Safety Cameras.

2. Select a region or regions.

3. Touch Download.

**Viewing Map Information**

   From the Home screen, touch 

   > Settings > Navigation > 

   > Map Info.

   A list of installed maps appears.

   **NOTE:** Select or clear the check box next to a map to enable or disable the map.

**E-mail Account Settings**

   From the Home screen, touch 

   > Settings > Email, and touch an account.

   • **Account Info**—contains information about this account, such as the password *(page 59).*
   
   • **Email Check Interval**—sets the frequency for checking for new e-mail.

   • **Email Sync Back Days**—sets the length of time to synchronize e-mail.

   • **Calendar Sync Back Days**—sets the length of time to synchronize the calendar.

   • **Email Notifications**—sets how you are notified when you receive an e-mail.

   • **Select Ringtone**

   • **Vibrate**

   • **Use Signature**

   • **Signature**—*(page 59).*
Contacts Settings
From the Home screen, touch 📱 > Settings > Contacts.

- **Sort Contacts By**—sorts contacts by first or last name.
- **Hide Contacts with No Phone**—hides contacts that do not have a phone number.

Calendar Settings
From the Home screen, touch 📱 > Settings > Calendar.

- **Set Default Reminder Time**—sets the number of minutes before an appointment that the device should notify you of the appointment.
- **Reminder Style**—sets how the device notifies you of an upcoming appointment.
- **Set Reminder Ringtone**—sets the ringtone that notifies you of an upcoming appointment.
- **Set Snooze Time**—sets the amount of time to snooze when you touch Snooze on a calendar notification.
- **Vibrate**—sets whether the device vibrates to notify you of an upcoming appointment.

Messaging Settings
From the Home screen, touch 📱 > Settings > Messaging.

- **Delivery Reports**—requests a delivery report for each SMS and MMS message you send.
- **Manage SIM card messages**—allows you to copy or delete SMS messages stored on your SIM card.
- **SMSC**—allows you to change the SMSC (short message service center) number, if necessary.
- **Read Reports**—requests a read report for each MMS message you send.
• **Auto-retrieve**—retrieves MMS messages automatically when you are not roaming.

• **Roaming Auto-retrieve**—retrieves MMS messages automatically when you are roaming.

• **Creation Mode**—limits the size and type of MMS message attachments for compatibility with all service providers.

• **Notifications**—displays a notification in the status bar when you receive a message.

• **Select Ringtone**—sets a ringtone to play when you receive a message.

• **Vibrate**—sets how the device vibrates when you receive a message.

• **Cell Broadcast Service**—page 56.

---

### Browser Settings

#### General Browser Settings

From the Home screen, touch 📱 > Settings > Browser.

- **Set Home Page**—sets the browser home page (page 68).

- **Block Pop-ups**—blocks pop-up windows while browsing.

- **Auto-fit Web Pages**—resizes Web pages to fit the screen.

- **Load Images**—allows you to view images on Web pages.

- **Set Text Size**—sets the size of text that the browser uses to display Web pages.

- **Enable JavaScript**—allows JavaScript.

- **Map URL Handling**—adjusts how map URLs are opened:
  - **Enable Support**—allows map URLs to be opened in Garmin
Customizing Your Device

maps.

◦ **Set as Default**—opens map URLs in Garmin maps by default.

**Browser Privacy Settings**
From the Home screen, touch ☰ > Settings > Browser.

• **Accept Cookies**
• **Remember Form Data**
• **Clear Cache**
• **Clear History**
• **Clear Cookies**
• **Clear Form Data**

**Browser Security Settings**
From the Home screen, touch ☰ > Settings > Browser.

• **Remember Passwords**—saves user names and passwords for Web sites.
• **Show Warnings**—displays a warning when the browser detects a problem with the security of a Web site.

• **Clear Passwords**—clears saved password information.

**Quick Search Settings**
From the Home screen, touch ☰ > Settings > Quick Search.

• **Searchable Items**—sets what is searched when using the Search widget.
• **Clear Search Shortcuts**—clears the shortcuts to recently selected search results.
• **Google Search Settings**—changes the search settings for Google Mobile Services.
Managing Applications

**NOTICE**

Cleared data cannot be restored.

1. From the Home screen, touch 
   [ ] > Settings > Application Management > Manage Applications.

   A list of applications appears, showing the amount of memory used for each application.

2. Touch [ ] to sort or filter the list (optional).

3. Touch an application to view details, including storage size, cache size, defaults, and permissions.

4. Select one or more options:
   - Touch Uninstall to remove the application from your device, if available.
   - Touch Clear data to clear stored data associated with the application.
   - Touch Clear cache to clear cached data for the application.
   - Touch Clear defaults to clear application defaults.
   - Touch Force Stop to close the application.

Allowing the Installation of Applications

You can allow the installation of applications from outside the Android Market.

1. From the Home screen, touch [ ] > Settings > Application Management.

2. Select the Unknown Sources check box.
Accounts and Sync Settings
From the Home screen, touch 📦 > Settings > Accounts and Sync.

- **Background Data**—allows applications, such as e-mail, to send and receive data at any time.
- **Auto-sync**—allows applications, such as e-mail, to synchronize with the server automatically.
- Select an account to change the sync settings.
For information about e-mail account settings, see page 101.

Security and Location Settings
From the Home screen, touch 📦 > Settings > Security and Location.

- **My Parking Spot**—saves your parking spot when you remove the device from the mount while power is applied to it.
- **Use Wireless Networks**—determines your location using Wi-Fi and mobile networks.
- **Use GPS Satellites**—determines your location using GPS satellites.

Using a Pattern to Unlock the Screen
When the screen-unlock pattern is turned on, you must enter a pattern to unlock the device. You can still use the device to contact emergency services without using the screen-unlock pattern.

1. From the Home screen, touch 📦 > Settings > Security and Location > Set Unlock Pattern.
2. Follow the on-screen instructions to create an unlock pattern.

If you forget your pattern, contact Product Support. Your device can be
unlocked, but all personal information is erased in the process. See page 110 for more information.

**Locking the SIM Card**
Use these settings to require a PIN to enable all non-emergency features of the device. You can still use the device to contact emergency services without a PIN. You can remove the SIM card to use the non-telephone features of the device.

1. From the Home screen, touch > Settings > Security and Location > Set up SIM Card Lock > Use SIM Card Lock.
2. Enter a PIN, and touch OK.

If you forget your SIM PIN, contact your service provider to obtain a Personal Unblocking Key (PUK).

---

**Viewing Passwords as you Type Them**
1. From the Home screen, touch > Settings > Security and Location.
2. Select the **Visible Passwords** check box.

**Setting a Credential Storage Password**
You can store security credentials, such as passwords and certificates, for quick access.

1. From the Home screen, touch > Settings > Security and Location > Set Password.
2. Enter a password, and touch OK. Use Secure Credentials is automatically selected.
Changing the Text Language

**NOTE:** Changing the text language does not change the language of map data, such as street names or user-entered data.

1. From the Home screen, touch 📷 > Settings > Language and Keyboard > Language.
2. Touch a language for all on-screen text.

Keyboard Settings

From the Home screen, touch 📷 > Settings > Language and Keyboard.

- **Text Completion**—displays suggested words as you enter text.
- **Auto Capitalization**—automatically capitalizes the first word in a field.
- **Enable Keyboards**—enables keyboards for different languages.

Date and Time Settings

From the Home screen, touch 📷 > Settings > Date and Time.

- **Automatic**—uses the network settings for the date and time.

If you clear the **Automatic** check box, you can set the following items:

- **Set Date**—allows you to set the date manually.
- **Set Time**—allows you to set the time manually.
- **Set Time Zone**—allows you to select a time zone manually.

- **Date Format**—sets the date format.
- **Time Format**—sets the time format to 12-Hour, 24-Hour, or UTC.
Units Settings

From the Home screen, touch \( \square \) > Settings > Units.

- **Distance**—units of measure for distance.
- **Temperature**—units of measure for temperature.
- **Coordinates**—units of measure for the coordinates format.

Privacy Settings

From the Home screen, touch \( \square \) > Settings > Privacy.

**NOTE:** Sharing your location information and feedback requires the use of your data plan, and any associated charges would apply.

- **Share with Google**—allows Google applications to use location information.
- **Connected Services Feedback**—allows Garmin-Asus to collect your speed, your direction, and your location information and share it, anonymously, and in a way that does not personally identify you, with strategic partners and service providers for the purpose of enhancing the quality of the content you receive on your device.
Clearing All User Data

**NOTICE**
This process restores all settings to factory defaults and removes all user data.

Any items that you have saved on your device, such as Saved Locations, photos, and contacts, are erased.

Any applications you have purchased and downloaded are removed. You should be able to download and install the applications again.

Map data is not erased.

Cleared data cannot be restored.

From the Home screen, touch \(\equiv\) > Settings > Privacy > Master Clear.

Changing the Storage Settings
1. From the Home screen, touch \(\equiv\) > Settings > Storage.
2. Scroll to view the total space and available space for each storage type.
3. Touch Default Storage.
4. Select Internal Storage or SD Card.
5. Touch Save.

Viewing Software Information
1. From the Home screen, touch \(\equiv\) > Settings > About.
2. Touch an item.
Appendix

About Satellite Signals
The GPS status icon appears in the upper-right corner of the status bar to indicate the GPS signal strength. When at least one of the lines is green, your device has acquired satellite signals. The more green lines, the stronger the GPS signal. If the device is not receiving GPS signals, appears.

For troubleshooting information about acquiring satellites, see page 117.

Viewing Detailed GPS Signal Information
1. From the application tray, touch Where Am I?.
2. Touch the information balloon.
3. Touch > Satellite Info.

About Connected Services
Use connected services to search for location-relevant information such as traffic, weather data, and flight status.

These services are not available in all areas. A data connection is required for these services. Your regular data usage charges apply.

Additional services may be available with a subscription. For more information, go to www.garminasus.com.
Battery Information

The icon in the status bar indicates the status of the internal battery. To increase the accuracy of the battery gauge, fully discharge the battery and then fully charge it. Do not unplug the device until it is totally charged.

Maximizing the Battery Life

- From the Home screen, touch > Settings > Audio and Display > Brightness to turn down the backlight.
- From the Home screen, touch > Settings > Display > Screen Timeout to reduce the timeout length.
- Do not leave your device in direct sunlight.
- Avoid prolonged exposure to excessive heat.

Replacing the Battery

⚠️ CAUTION

Do not use a sharp object to remove the battery. A sharp object may puncture the battery, which may present a risk of fire, chemical burn, electrolyte leak, and/or injury.

Only use the correct battery type. Using an incorrect battery may present a risk of explosion.

⚠️ NOTICE

To avoid losing your customized settings, replace the battery within five minutes of removing it from your device.

Contact your local waste disposal department for information on properly disposing of the battery and device.
If you need to replace the battery in the device, use an SBP-20 lithium-ion battery. For more information on purchasing a replacement battery, go to www.garminasus.com.

Mounting on Your Dashboard

**NOTICE**

The permanent mounting adhesive is extremely difficult to remove after it is installed.

A mounting disk is included in some device packages. Use the mounting disk to mount your device to the dashboard and comply with certain state and local regulations.

1. Clean and dry the dashboard where you are placing the disk.
2. Remove the backing from the adhesive on the bottom of the disk.
3. Place the disk on the dashboard.
4. Remove the clear plastic cover from the top of the disk.
5. Place the suction cup mount on top of the disk.
6. Flip the lever down (toward the disk).

Removing the Device, Cradle, and Mount

**Removing the device from the Cradle**

1. Press up on the tab on the top of the cradle.
2. Tilt the device forward.

**Removing the Cradle from the Mount**

1. Turn the cradle to the right or left.
2. Apply pressure until the socket on the cradle releases the ball on the mount.
Removing the Suction Cup Mount from the Windshield

1. Flip the lever on the suction cup mount toward you.
2. Pull the tab on the suction cup toward you.

Resetting the Device

⚠️ CAUTION

Do not use a sharp object to remove the battery. A sharp object may puncture the battery which may present a risk of fire, chemical burn, electrolyte leak, and/or injury.

If the device stops functioning, you may need to reset the device.

1. Turn off the device, and then turn on the device.
2. If necessary, remove and replace the battery (page 112).

The device should restart and operate normally.

Caring for Your Device

- Avoid dropping your device and operating it in high-shock and high-vibration environments.
- Do not expose the device to water. Contact with water can cause this device to malfunction.
- Do not store the device where prolonged exposure to extreme temperatures can occur, because it can cause permanent damage.
- Never use a hard or sharp object to operate the touchscreen, or damage may result.
- To help avoid theft, remove the device and mount from sight when not in use.
- Remove the residue on the windshield left by the suction cup.
Specifications
Physical size (W × H × D):
2.28 × 4.33 × 0.54 in.
(58 × 110 × 13.8 mm)
Weight: 4.61 oz. (130.6 g)
Display: 3.2 in. diagonal, 320 × 480 pixels; HVGA display with white backlight and touchscreen
Case: IP51 (Not waterproof)
Operating temperature range:
from 5°F to 104°F
(from -15°C to 40°C)
Storing temperature Range:
from -4°F to 158°F
(from -20°C to 70°C)
Battery charging temperature range:
from 32°F to 140°F
(from 0°C to 60°C)
Power connector: Mini-USB for power and computer

Battery type: User-replaceable 1150 mAh lithium-ion battery
Battery life: 9–11 hours talk time, 530–660 hours standby time, depending on usage and settings
Charge time: Approximately 3 hours
Power input: AC input using mini-USB connector and AC charger, or DC input using vehicle power cable
Usage: 3 W max.
GPS receiver: High-sensitivity
Acquisition times*:
Warm: <1 sec.
Cold: <38 sec.
Factory Reset: <45 sec.
*Average acquisition times for a stationary receiver with a clear view of the sky.
Appendix

**Frequency band:** 3G Bands I and IV; 2G (GSM) 850/900/1800/1900

**Other connectivity:** Bluetooth 2.0+EDR; 802.11 b/g (Wi-Fi); mini-USB 2.0

**Platform:** Android™ platform

**Camera:** 3.0 MP camera

**Audio out:** mini-USB

**Computer interface:** Plug-and-play USB mass storage

**Data storage:** Internal memory and optional removable microSD card. Data stored indefinitely.
# Troubleshooting

<table>
<thead>
<tr>
<th>Issue/Question</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>The device is not acquiring satellite signals.</td>
<td>From the Home screen, touch 📞 &gt; Settings &gt; Security and Location. Select the <strong>Use GPS Satellites</strong> check box. Ensure that the GPS has enough time to initialize. When the GPS is turned on for the first time, it may take a few minutes to initialize.</td>
</tr>
<tr>
<td>The device will not turn on.</td>
<td>Charge the battery (<a href="#">page 3 and page 4</a>). Replace the battery (<a href="#">page 112</a>).</td>
</tr>
<tr>
<td>The device will not charge.</td>
<td>Replace the fuse in the vehicle power cable. As a safety precaution in high-temperature environments, the device will suspend charging and use battery power. If the device is mounted in a vehicle, remove the device from the mount and place it out of direct sunlight.</td>
</tr>
<tr>
<td>I cannot place a phone call.</td>
<td>The call function may have been suspended because of low battery power. In low-battery situations, you might be prompted to turn off the call functions. You can still navigate in these situations. From the Home screen, touch 📞 &gt; Settings &gt; Wireless Manager. Clear the <strong>Airplane Mode</strong> check box.</td>
</tr>
<tr>
<td>Do not delete necessary files.</td>
<td>In mass storage mode, do not delete or format the original directories, such as Garmin and Documents. Do not delete files for which you do not know the purpose.</td>
</tr>
</tbody>
</table>
